• **National Research Council – Research Associateship Programs.** For more information, visit [http://sites.nationalacademies.org/pga/rap/](http://sites.nationalacademies.org/pga/rap/). Deadlines: May 1, 2016; August 1, 2016; November 1, 2016

• **National Science Foundation - Ideas Lab: Measuring “Big G” Challenge.** This solicitation, found at the URL below, describes an Ideas Lab on “Measuring Big G.” Ideas Labs are intensive meetings focused on finding
innovative solutions to grand challenge problems. The ultimate aim of this Ideas Lab organized by the Physics Division of the Mathematical and Physical Sciences Directorate at the NSF, in collaboration with experts in the field, is to facilitate the development of new experiments designed to measure Newton’s gravitational constant G with relative uncertainties approaching or surpassing one part in 100,000. The aspiration is that mixing researchers from diverse scientific backgrounds will engender fresh thinking and innovative approaches that will provide a fertile ground for new ideas on how to measure G that can be used to validate and extend current calculations. U.S. researchers may submit preliminary proposals for participation in the Ideas Lab only via FastLane. The goal is to develop multidisciplinary ideas that eventually will be submitted as full proposals. For more information, visit http://www.nsf.gov/pubs/2016/nsf16520/nsf16520.htm. Deadlines: May 16, 2016 (required preliminary proposal); October 26, 2016 (full proposal)

- Oak Ridge Institute for Science and Education - Higher Education Research Experiences at Oak Ridge National Laboratory for Faculty. For more information, visit http://www.orau.org/ornl/heretornl/faculty.htm. Deadlines: June 1, 2016; October 1, 2016; February 1, 2017

• National Science Foundation - Improving Undergraduate STEM Education: Education and Human Resources. This program invites proposals that address immediate challenges and opportunities that are facing undergraduate STEM education, as well as those that anticipate new structures (e.g. organizational changes, new methods for certification or credentialing, course re-conception, cyberlearning, etc.) and new functions of the undergraduate learning and teaching enterprise. The IUSE: EHR program recognizes and respects the variety of discipline-specific challenges and opportunities facing STEM faculty as they strive to incorporate results from educational research into classroom practice and work with education research colleagues and social science learning scholars to advance our understanding of effective teaching and learning. Toward these ends the program features two tracks: (1) Engaged Student Learning and (2) Institutional and Community Transformation. Two tiers of projects exist within each track: (i) Exploration and Design and (ii) Development and Implementation. For more information, visit http://www.nsf.gov/pubs/2015/nsf15585/nsf15585.htm. Deadlines: November 2, 2016 (Exploration and Design Tier
for Engaged Student Learning & Institution and Community Transformation; January 11, 2017 (Development and Implementation Tiers for Engaged Student Learning & Institution and Community Transformation)

- **National Science Foundation - Advancing Informal STEM Learning (AISL).** This program seeks to advance new approaches to and evidence-based understanding of the design and development of STEM learning in informal environments for public and professional audiences; provide multiple pathways for broadening access to and engagement in STEM learning experiences; advance innovative research on and assessment of STEM learning in informal environments; and develop understandings of deeper learning by participants (National Resource Council, 2012). To achieve the greatest return on its investments, the AISL program encourages projects that will “raise the bar” in the fields of informal STEM education. It invests in projects that advance the leading edge of the field and address its most critical challenges. AISL proposals must articulate the value of the proposed work to the advancement of the informal STEM learning field beyond individual project impact. Thus, in making funding decisions, the program will place particular emphasis on the ability of projects to demonstrate the characteristics of knowledge-building, innovation, strategic impact, and collaboration. For more information, visit [http://www.nsf.gov/pubs/2015/nsf15593/nsf15593.htm](http://www.nsf.gov/pubs/2015/nsf15593/nsf15593.htm). Deadline: November 8, 2016

- **National Science Foundation - Division of Molecular and Cellular Biosciences: Investigator-initiated research projects.** For more information, visit [http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503626&org=MCB&from=home](http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503626&org=MCB&from=home). Deadlines: November 15, 2016; November 15, 2017

• National Science Foundation - Major Research Instrumentation (MRI). This program seeks to improve the quality and expand the scope of research and research training in science and engineering, by providing organizations with opportunities to acquire instrumentation that supports the research and research training goals of the organization. The program emphasizes shared-use instrumentation that will enhance the capabilities of researchers both within and outside the proposing organization. Development efforts that leverage the strengths of private sector partners to build instrument development capacity at MRI submission-eligible organizations are encouraged. The MRI
Program is intended to assist with the acquisition or development of a single research instrument that is, in general, too costly and/or not appropriate for support through other NSF programs. An instrument acquired or developed with support from the MRI program is expected to be operational for regular research use by the end of the award period. The program does not fund research projects, including research that uses an instrument acquired or developed with support from the program. The program does not support the operation and maintenance of facilities or centers. Proposals to the MRI Program, must be for either acquisition (Track 1) or development (Track 2), and must be for only a single, well-integrated instrument. A well-integrated research instrument means that the ensemble of equipment that defines the instrument enables a specific research experiment or type of research experiment to be undertaken; separating or removing an element or component of such an integrated instrument would preclude any experiments from occurring or succeeding. The MRI program does not support the acquisition or development of a suite of instruments to outfit research laboratories/facilities or to conduct independent experiments simultaneously. Similarly the MRI program does not fund common, general purpose ancillary equipment that would normally be found in a laboratory and/or is relatively easily procured by the organization. Further guidance on appropriate requests can be found in the MRI FAQs at http://www.nsf.gov/pubs/2015/nsf15012/nsf15012.jsp. See also http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5260. Deadline: January 11, 2017

- **National Science Foundation - Long Term Research in Environmental Biology.** For more information, visit http://www.nsf.gov/pubs/2016/nsf16500/nsf16500.htm. Deadlines: January 23, 2017 (required preliminary proposal); August 2, 2017 (full proposal)

- **National Science Foundation - Division of Environmental Biology.** For more information, visit http://www.nsf.gov/pubs/2015/nsf15609/nsf15609.htm. Deadlines: January 23, 2017 (required pre-proposal); August 2, 2017 (invited proposals)

- **National Science Foundation - Genealogy of Life.** For more information, visit http://www.nsf.gov/pubs/2016/nsf16522/nsf16522.htm. Deadlines: March 22, 2017; March 28, 2018

• **Spencer Foundation - Small Research Grants.** Since it was established in 1971, the Spencer Foundation has sought to support high-quality, innovative research with the potential to improve education. In pursuing that goal, they have always had broad ideas about the questions such research might ask, the methods it might use, and the ways in which it might be supported. The Foundation currently accepts proposals for small research grants, with a budget limit of $50,000. Small grant proposals covering any topic that falls within Spencer’s mission can be submitted through the general small grants program. For more information, visit [http://www.spencer.org/small-research-grants](http://www.spencer.org/small-research-grants). Deadlines: May 1, 2016; August 1, 2016; November 1, 2016

• **Trust for Mutual Understanding - Grants Program.** This entity awards grants to American nonprofit organizations to support the international travel component of cultural and environmental exchanges conducted in partnership with institutions and individuals in Russia and Central and Eastern Europe. Priority consideration is given to projects that involve direct, in-depth professional interaction, with the potential for sustained collaboration; that show evidence of professional accomplishment and innovation; and/or that respond to social contexts and engage local communities. For more information, visit [http://www.tmuny.org/applicants/](http://www.tmuny.org/applicants/). Deadlines: May 1, 2016 (initial inquiry; full proposal due August 1, 2016); November 1, 2016 (initial inquiry; full proposal due February 1, 2017)
• **Spencer Foundation - The New Civics Small Grant.** This initiative is embedded within the broader Spencer Foundation belief that cultivating knowledge and new ideas about education will ultimately improve students’ lives and enrich society. The designation “new” refers to an expanded understanding of civic education and its relationship to civic action. Ultimately, civic education is not simply a grounding in historical and procedural knowledge of systems of government, but, more broadly, as education, whether in schools or elsewhere, that develops skills, knowledge, and dispositions that lead to informed and reasoned civic action. For more information, visit [http://www.spencer.org/the-new-civics-guidelines](http://www.spencer.org/the-new-civics-guidelines). **Deadlines:** May 2, 2016; August 1, 2016; November 1, 2016

• **National Science Foundation - Scholarships in Science, Technology, Engineering, and Mathematics (S-STEM).** This opportunity addresses the need for a high quality STEM workforce in areas of national priorities. The program seeks to increase the success of low-income academically talented students with demonstrated financial need who are pursuing associate, baccalaureate, or graduate degrees in STEM. The program provides awards to Institutions of Higher Education to fund scholarships, and to enhance and study effective curricular and co-curricular activities that support recruitment, retention, student success, and graduation in STEM. For more information, visit [http://www.nsf.gov/pubs/2015/nsf15581/nsf15581.htm?WT.mc_id=USNSF_25&WT.mc_ev=click](http://www.nsf.gov/pubs/2015/nsf15581/nsf15581.htm?WT.mc_id=USNSF_25&WT.mc_ev=click). **Deadline:** May 16, 2016

• **U.S. Department of Defense, Defense Advanced Research Projects Agency - Next Generation Social Science (NGS2).** DARPA is soliciting innovative research proposals to build a new capability (methods, models, tools, and a community of researchers) to perform rigorous, reproducible experimental research at scales necessary to understand emergent properties of human social systems. DARPA anticipates that the NGS2 program may require a fundamental reimagining of the social science research cycle and encourages participation from a wide and diverse combination of disciplines and skill sets – to include social sciences, but also physics, computer science, biology, game design, mathematics, and others. Specifically excluded is research that primarily results in incremental improvements to the existing state of practice. For more information, visit [http://www.grants.gov/web/grants/view-opportunity.html?oppId=282334](http://www.grants.gov/web/grants/view-opportunity.html?oppId=282334). **Deadline:** May 18, 2016

• **National Endowment for the Humanities - Digital Projects for the Public.** These grants support projects that significantly contribute to the public’s engagement with the humanities. Digital platforms—such as websites, mobile applications and tours, interactive touch screens and kiosks, games, and virtual environments—can reach diverse audiences and bring the humanities to life for the American people. The program offers three levels of support for digital projects: grants for Discovery projects (early-stage planning work), Prototyping projects (proof-of-concept development work), and Production projects (end-stage production and distribution work). While projects can take many forms, shapes, and sizes, your request should be for an exclusively digital project or for a digital component of a larger project. For more information, visit [http://www.neh.gov/grants/public/digital-projects-the-public](http://www.neh.gov/grants/public/digital-projects-the-public). **Deadline:** June 8, 2016

• **National Endowment for the Humanities - Research and Development.** This program supports projects that address major challenges in preserving or providing access to humanities collections and resources. These challenges include the need to find better ways to preserve materials of critical importance to the nation’s cultural heritage—from fragile artifacts and manuscripts to analog recordings and digital assets subject to technological obsolescence—and to develop advanced modes of organizing, searching, discovering, and using such materials. For more information, visit [http://www.neh.gov/grants/preservation/research-and-development](http://www.neh.gov/grants/preservation/research-and-development). **Deadline:** June 21, 2016

• **U.S. Agency for International Development - Higher Education Partnerships for Innovation and Impact Annual Program Statement.** USAID is seeking concept papers from qualified U.S. and non-U.S. higher education institutions (HEIs) to work with USAID to advance strategic priorities and objectives and achieve sustainable development outcomes, results, and impact. This Annual Program Statement (APS) has the flexibility to award Cooperative Agreements, Grants, Fixed Amount Awards, and leader with Associate Awards. This APS is not supported by specific funding, and any funding for any USAID-HEI partnership proposed under this APS would have to be requested from the specific USAID Mission, Bureau, or Independent Office with which the prospective applicant seeks to collaborate and to which the Concept Paper will be submitted. USAID seeks to optimize its relationship with HEIs by identifying and promoting successful partnerships and collaboration models, and increasing USAID’s access to higher education technical resources. The purpose of this APS is to promote opportunities for leveraging HEI capabilities across USAID’s portfolio and its program cycle, and strengthen developing country HEI
capabilities to respond to and solve critical development challenges. For more information, visit http://www.grants.gov/web/grants/view-opportunity.html?oppId=277586. Deadline: June 29, 2016

- **American Institute of Indian Studies - Senior Scholarly/Professional Development Fellowships.** This opportunity is available both to established scholars who have not previously specialized in Indian studies and to established professionals who have not previously worked or studied in India. Fellows are formally affiliated with an Indian institution. Awards may be granted for periods of six to nine months. For more information, visit http://www.indiastudies.org/research-fellowship-programs/categories-of-fellowship/. Deadline: July 1, 2016

- **National Resource Center - Paul P. Fidler Research Grant.** This opportunity is designed to encourage the development and dissemination of knowledge that has the potential to improve the experiences of college students in transition. For more information, visit http://www.sc.edu/fye/research/grant/index.html. Deadline: July 1, 2016

- **Council for the International Exchange of Scholars - 2017-2018 Fulbright Scholar Program.** For other eligibility requirements and detailed award descriptions visit our website at http://www.cies.org/us_scholars/us_awards/ or contact scholars@iie.org. Deadline (for most awards): August 1, 2016
  - **If I already had a Fulbright, can I get another one?**
    - Restrictions regarding previous Fulbright experiences have been lifted by the J. William Fulbright Foreign Scholarship Board. The board reiterated its strong preference for Fulbright Scholar opportunities to be given to candidates who have not previously received a Fulbright Scholar grant, as stipulated in section 624.2 of the Fulbright Program Policies.

- **National Science Foundation - Research Experiences for Undergraduates.** The REU Sites program is based on independent proposals to initiate and conduct projects that engage a number of students in research. REU Sites may be based in a single discipline or academic department, or on interdisciplinary or multi-department research opportunities with a coherent intellectual theme. Proposals with an international dimension are welcome. For more information, visit http://www.nsf.gov/pubs/2013/nsf13542/nsf13542.htm. Deadlines: August 24, 2016

- **National Endowment for the Humanities - Humanities Open Book Program.** This program is designed to make outstanding out-of-print humanities books available to a wide audience. By taking advantage of low-cost “ebook” technology, the program will allow teachers, students, scholars, and the public to read humanities books that have long been out of print. For more information, visit http://www.neh.gov/grants/odh/humanities-open-book-program. Deadline: September 13, 2016

- **National Science Foundation - Major Research Instrumentation (MRI).** This program seeks to improve the quality and expand the scope of research and research training in science and engineering, by providing organizations with opportunities to acquire instrumentation that supports the research and research training goals of the organization. The program emphasizes shared-use instrumentation that will enhance the capabilities of researchers both within and outside the proposing organization. Development efforts that leverage the strengths of private sector partners to build instrument development capacity at MRI submission-eligible organizations are encouraged. The MRI Program is intended to assist with the acquisition or development of a single research instrument that is, in general, too costly and/or not appropriate for support through other NSF programs. An instrument acquired or developed with support from the MRI program is expected to be operational for regular research use by the end of the award period. The program does not fund research projects, including research that uses an instrument acquired or developed with support from the program. The program does not support the operation and maintenance of facilities or centers. Proposals to the MRI Program, must be for either acquisition (Track 1) or development (Track 2), and must be for only a single, well-integrated instrument. A well-integrated research instrument means that the ensemble of equipment that defines the instrument enables a specific research experiment or type of research experiment to be undertaken; separating or removing an element or component of such an integrated instrument would preclude any experiments from occurring or succeeding. The MRI program does not support the acquisition or development of a suite of instruments to outfit research laboratories/facilities or to conduct independent experiments simultaneously. Similarly the MRI program does not fund common, general purpose ancillary equipment that would normally be found in a laboratory and/or is relatively easily procured by the organization. Further guidance on appropriate requests can be found in the MRI FAQs at http://www.nsf.gov/pubs/2015/nsf15012/nsf15012.jsp. See also http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5260. Deadline: January 11, 2017
National Science Foundation - Integrated NSF Support Promoting Interdisciplinary Research and Education (INSPIRE). This pilot continues to support bold interdisciplinary projects in all NSF-supported areas of science, engineering, and education research in FY16. INSPIRE has no targeted themes and serves as a funding mechanism for proposals that are required both to be interdisciplinary and to exhibit potentially transformative research. Complementing existing NSF efforts, INSPIRE was created to handle proposals whose:

- Scientific advances lie outside the scope of a single program or discipline, such that substantial funding support from more than one program or discipline is necessary.
- Lines of research promise transformational advances.
- Prospective discoveries reside at the interfaces of disciplinary boundaries that may not be recognized through traditional review or co-review.

To receive funding as an INSPIRE-appropriate project, all three criteria must be met. INSPIRE is not intended to be used for interdisciplinary projects that can be accommodated within other NSF funding mechanisms or that continue well-established practices. For more information, visit http://www.nsf.gov/pubs/2016/nsf16023/nsf16023.jsp?WT.mc_id=USNSF_25&WT.mc_ev=click. Deadline: varies (before end of FY16 [U.S. federal government FY])

Smithsonian Institution - Fellowship Opportunities. To view a list of fellowship opportunities, visit http://www.smithsonianofi.com/fellowship-opportunities/. Deadlines vary

ASIANetwork - various programs. For more information, visit http://www.asianetwork.org/programs/. Deadlines: various

Carnegie Corporation of New York - Urban and Higher Education – Pathways to Education. The Carnegie Corporation of New York’s Urban and Higher Education Program’s goals are centered on creating pathways to educational and economic opportunity by generating systemic change across a K-16 continuum, with particular emphasis on secondary and higher education. The Carnegie Corporation works to enable many more students, including historically underserved populations, to achieve academic success. Grantees help all students perform with the high levels of creative, scientific, and technical knowledge and skill needed to compete in a global economy and exercise leadership. For more information, visit http://carnegie.org/grants/grantseekers/how-to-apply/. Deadline: Letters of inquiry accepted on rolling basis

Humboldt Foundation - Humboldt Research Fellowship for Experienced Researchers. This opportunity is for researchers with above average qualifications, having completed the doctorate less than 12 years ago, already having their own research profile, and are working at least at the level of Assistant Professor or Junior Research Group Leader or have a record of several years of independent academic work. For more information, visit http://www.humboldt-foundation.de/web/1710.html. Deadline: Rolling

Council for the International Exchange of Scholars - Fulbright Specialist Program. This program is designed to provide short-term academic opportunities (two to six weeks) for U.S. faculty and professionals. Shorter grant lengths give Specialists greater flexibility to pursue a grant that works best with their current academic or professional commitments. For more information, visit http://www.cies.org/Specialists/. Deadline: Rolling

National Socio-Environmental Synthesis Center - Various Programs. For more information, visit http://www.sesync.org/opportunities. Deadlines: Rolling

Rutgers Institute for Research on Women - Global Scholars Program. As part of its commitment to foster feminist research at Rutgers and beyond, the IRW hosts feminist researchers from around the world as visiting global scholars. Visiting global scholars are able to pursue their own research and writing in a supportive environment and access Rutgers’ unique feminist resources. They also participate in the IRW Seminar, present public lectures to the university community and speak in classes and community forums. For more information, visit http://irw.rutgers.edu/images/2014-15_Global_Scholars_Call_FINAL.pdf. Deadline: Rolling

Institute for Humane Studies - Hayek Fund for Scholars (Career development grants up to $750 for untenured scholars). These grants can cover travel, application fees, conference fees, and other career-related expenses. Eligible career-advancing activities include, but are not limited to: Presentations at academic or professional conferences; Travel to academic job interviews on a campus or at professional/academic conferences; Travel to archives or
libraries for research; Participation in career-development or enhancing seminars; Distribution of a published article to colleagues in your field; Submission of unpublished manuscripts to journals or book publishers. Note, Hayek Fund awards are not given for conference attendance alone. Funding will only be considered for individuals presenting a paper or interviewing for a job at a conference. For more information, visit [http://www.theihs.org/Hayek-fund](http://www.theihs.org/Hayek-fund). Deadline: Applications are accepted on a rolling basis no later than four weeks before the fundable activity.

- **Institute for Humane Studies - Hayek Fund for Faculty** (Student educational enhancement grants up to $5,000 for full-time faculty including tenured and teaching fellows working to share the ideas of liberty with undergraduate students). Eligible activities include, but are not limited to: Reading groups; Class trips; Guest lectures; Research Fellowships; Seminars/Colloquia; Debates; Movie Viewings and Discussions; Developing a new course. For more information, visit [http://www.theihs.org/Hayek-fund](http://www.theihs.org/Hayek-fund). Deadline: Applications are accepted on a rolling basis no later than four weeks before the fundable activity.

- **Rockefeller Foundation - Practitioner Residencies at the Bellagio Center.** This program offers academic, artists, thought leaders, policymakers, and practitioners a serene setting conducive to focused, goal-oriented work, and the unparalleled opportunity to establish new connections with fellow residents from a stimulating array of disciplines and geographies. The Bellagio Center community generates new knowledge to solve some of the most complex issues facing our world and creates art that inspires reflection, understanding, and imagination. Practitioner residencies typically last four weeks in length. For more information, visit [http://www.rockefellerfoundation.org/bellagio-center/residency-program/practitioner-residency](http://www.rockefellerfoundation.org/bellagio-center/residency-program/practitioner-residency). Deadline: Applications are accepted on a rolling admissions basis throughout the year. Applicants will be notified of the decision within eight weeks of receiving the application and letters of reference.

- **Rockefeller Foundation - Bellagio Study & Conference Center - International Conferences on Global Issues.** Bellagio conferences establish new connections across disciplines and geographies, encourage dynamic, small group interactions, and promote innovative and creative thinking - all in a serene setting conducive to focused, goal-oriented work. Approximately one-third of the conferences that take place at the Bellagio Center over the course of a year are organized directly by the Rockefeller Foundation. The other conferences are arranged by people and institutions that share in the Foundation’s vision of expanding opportunities for poor or vulnerable people. For externally-organized conferences, chosen through a competitive process, the Foundation provides the facilities, accommodations, and some travel support at no cost to conference organizers or attendees. These selected conferences aim to contribute to our broader mission of promoting the well-being of humanity. For more information, visit [http://www.rockefellerfoundation.org/bellagio-center/conferences](http://www.rockefellerfoundation.org/bellagio-center/conferences). Deadline: Conference applications are accepted on a rolling basis. Applicants are advised to apply at least six to nine months in advance depending on the availability of conference spaces at Bellagio.

- **National Socio-Environmental Synthesis Center - Sabbatical & Research Fellowships.** Sabbatical Fellowships (2-12 months) support social, environmental, or cyberinfrastructure research activities that will advance the mission of SESYNC. For more information, visit [http://www.sesync.org/sabbatical-and-research-fellowships](http://www.sesync.org/sabbatical-and-research-fellowships). Deadline: Applications are accepted on a rolling basis and evaluated quarterly.

- **National Geographic Society - Committee for Research and Exploration Grant.** This opportunity awards grants for scientific field research and exploration through its Committee for Research and Exploration. All proposed projects must have both a geographical dimension and relevance to other scientific fields and be of broad scientific interest. For more information, visit [http://www.nationalgeographic.com/explorers/grants-programs/cre-application/](http://www.nationalgeographic.com/explorers/grants-programs/cre-application/). Deadline: open.

FACULTY DEVELOPMENT OPPORTUNITIES – Workshops, Conferences

- **American Association of University Women (AAUW)**
  - AAUW is currently recruiting faculty to serve on applicant review and selection panels for the following programs:
    - American Fellowships
    - International Fellowships
    - Selected Professions Fellowships
    - Career Development Grants

- **Council for the International Exchange of Scholars (CIES)**
  - If I already had a Fulbright, can I get another one?
    - Restrictions regarding previous Fulbright experiences have been lifted by the J. William Fulbright Foreign Scholarship Board. The board reiterated its strong preference for Fulbright Scholar opportunities to be given to candidates who have not previously received a Fulbright Scholar grant, as stipulated in section 624.2 of the Fulbright Program Policies.

- **Council on Undergraduate Research (CUR)**
  - CUR Registry of Undergraduate Researchers:
    - The purpose of this registry is to facilitate matchmaking between undergraduates who have research experience and a desire to pursue an advanced degree, with graduate schools seeking high quality students who are well prepared for research. The Registry is open to students and graduate schools in the fields of Chemistry, Biochemistry, Biology, Physics/ Astronomy, Mathematics/Computer Science, Economics, Geosciences, Engineering, Psychology, Sociology, Humanities and Anthropology/Archaeology. Any undergraduate may go to [www.cur.org/ugreg/](http://www.cur.org/ugreg/) to fill out a simple curriculum vitae form. There is no charge to the student and records will be made available to bona fide Graduate Schools that contract with CUR for this service. Organizations or companies seeking the students’ information for other marketing purposes will not be granted access. Graduate School representatives may contact students to invite applications or visits to the campus and laboratory, or to share information about their research programs and financial support opportunities.
  - CUR List-serv:
    - In an effort to enhance communication between the divisions of CUR a number of divisions have established listservs. To subscribe to these listservs, please visit [http://www.cur.org/curlssubscribe.html](http://www.cur.org/curlssubscribe.html). In the future, periodic updates will be posted on these listservs and we hope that it will function as a two-way communication conduit between the Council and the broader CUR membership.

Meeting NSF’s Technical Reporting Requirements -  

What are the most common proposal compliance mistakes made by PIs?  

NSF has implemented new features for automated compliance checking in the FastLane system. A PI should check his or her proposal for compliance before submitting it. See Exhibit II-1: Proposal Preparation Checklist under Chapter 2.D of the Grant Proposal Guide. Below are some of the common compliance issues we have seen with DEL proposals.

- Missing Current & Pending Support form for each Co-PI and Senior Personnel. Each submission must include a declaration of all current and pending proposals of the PI, Co-PIs, and all other Senior Personnel listed on the proposal. The current submission counts as a pending proposal.
- The Biographical Sketch is not in the correct format. The Biographical Sketch:
  - Should be no more than two pages
  - Should be submitted for each individual identified as Senior Personnel
  - Must adhere to the Biographical Sketch guidelines. Information on the Biographical Sketch guidelines can be found in Chapter II.C.2.f of the Grant Proposal Guide.
- The References Cited Form should include only the works cited in the Project Description. This would include scholarly works, news articles, and websites. Do not provide website URLs in the Project Description. Links to databases and archives can be cited in the Project Description and the URLs should be provided under the References Cited Form.
- Name and Address in registration systems are not identical. Your name and address in your SAM (System for Award Management) registration should be identical to that in FastLane. If your institution has made any submissions through Grants.gov, your institution will be registered in SAM. You can read more about SAM registration on the Grants.gov Applicants Step 2: Register with SAM webpage. If you are an individual applicant, you do not need SAM registration.
- The institution does not have a Data Universal Numbering System (DUNS) number. To submit a proposal, your institution must have a DUNS number. You can use the Online DUNS Request Portal to receive one free of charge. Allow for several days to get your registration in DUNS complete. If you are an individual applicant, you do not need a DUNS number.

  SPIN (Sponsored Programs Information Network) provides up-to-date information on current national and international government and private funding sources, including fellowships, research grants, publication support, sabbatical support, curriculum development, and more. Accessible to anybody on campus using Dickinson’s internet connection. SPIN is also accessible to anybody off campus after a SPIN profile has been established. If you would like to create a SPIN profile and receive summaries of grant opportunities based on keywords related to your research sent automatically to you by email, please contact Ben Sweger. Check out the helpful SPIN training videos at https://spin.infoedglobal.com/Home/TrainingVideos (suggested browsers: Google Chrome or Mozilla Firefox).

  If you find a funding opportunity using SPIN, notify the Sponsored Projects Office so that we can assist you with the proposal preparation and submission processes.

IMPORTANT INFORMATION FROM FINANCIAL OPERATIONS

- **Summer 2016 Student Research Projects Logistics**: Arrangements are being made now! To finalize budgetary and living arrangements for students and faculty involved in summer 2016 projects, contact Tricia Contino (x8993) in Financial Operations for external grant support projects, or Angie Karas (x1392) for College/R&D-supported research.

- Ensuring that all awards and grants are duly recognized by the College and properly reflected in the financial records is important. All award funds should go directly to the College Advancement Office so that we can process them in Banner. The Gift Recorder (Jen Acuna) enters the funds in Banner so that they are recorded in College Advancement’s records and in the financial records in accounts restricted for that award. The College Advancement and Financial Operations offices work together closely to make sure this process captures all College awards. If you receive an award, please make sure to contact one of these offices.

- **Cost Share Guidelines**: If a proposal requires cost sharing, the commitment of institutional resources must be noted on the External Grant Notification/Clearance Form that is circulated among the senior officers of the College for approval. If the College receives the award that includes cost sharing in the approved budget, the College is obligated to record these costs in the financial records and these cost share expenses are subject to audit. Please be sure to discuss cost sharing with the Sponsored Projects Office and/or Financial Operations offices prior to submitting proposals.

- Every grant or award has a unique account number (called FOAPAL) to track activity specific to that award. These numbers are assigned by Financial Operations when award letters are received. Tricia Contino tracks activity in accounts and sends quarterly spreadsheets to Financial Managers for their information and review. As a Financial Manager, you have the ability to review real time expenditures via Banner Self-Service. Please contact Miriam McMenemy to inquire about Self-Service training offerings and direct specific questions about finances on awards to Tricia.

- If you have recommendations about information that would be useful for managing your grants (additional analysis, open sessions, Banner training, one-on-one assistance, etc.), please contact Tricia Contino.
