Letter from the NSF re: New Proposal & Award Policies & Procedures Guide (NSF 18-1)

Dear Colleagues:

We are pleased to announce that a revised version of the NSF Proposal & Award Policies & Procedures Guide
(PAPPG), (NSF 18-1) has been issued.

The new PAPPG will be effective for proposals submitted, or due, on or after January 29, 2018. Significant
changes include:

- Addition of a new eligibility subcategory on international branch campuses of U.S. Institutions of Higher
  Education;
- Revision of eligibility standards for foreign organizations;
- Implementation of the standard Collaborators and Other Affiliations (COA) template that has been in pilot phase
  since April;
- Increase in the Budget Justification page limitation from three pages to five pages;
- Restructuring of coverage on grantee notifications to and requests for approval from NSF, including referral to the
  Prior Approval Matrix available on the NSF website; and
- Numerous clarifications and other changes throughout the document.

You are encouraged to review the by-chapter summary of changes provided in the Introduction section of the
PAPPG.

A webinar to brief the community on the new PAPPG will be held on December 8 at 2 PM EST. Sign up to be notified
when registration is available on the outreach notifications website, by selecting “All NSF Grants and Policy Outreach
Events & Notifications.”

While this version of the PAPPG becomes effective on January 29, 2018, in the interim, the guidelines contained in
the current PAPPG (NSF 17-1) continue to apply. We will ensure that the current version of the PAPPG remains on
the NSF website, with a notation to proposers that specifies when the new PAPPG (including a link to the new Guide)
will become effective.

If you have any questions regarding these changes, please contact the Policy Office on (703) 292-8243 or by e-mail to
policy@nsf.gov.

Regards,

Jean Feldman
Head, Policy Office
Division of Institution and Award Support
Office of Budget, Finance & Award Management

“The following elements should be considered in the review for both criteria:

- What is the potential for the proposed activity to:
  - advance knowledge and understanding within its own field or across different fields (Intellectual Merit); and
  - benefit society or advance desired societal outcomes (Broader Impacts)?

- To what extent do the proposed activities suggest and explore creative, original, or potentially transformative concepts?

- Is the plan for carrying out the proposed activities well-reasoned, well-organized, and based on a sound rationale? Does the plan incorporate a mechanism to assess success?

- How well qualified is the individual, team, or institution to conduct the proposed activities?

- Are there adequate resources available to the PI (either at the home institution or through collaborations) to carry out the proposed activities?”

“NSF is initiating a new pilot on submission of Collaborators and Other Affiliations (COA) information. Effective April 24th 2017, NSF will require the use of the spreadsheet linked below as a template for identifying COA information. The content requirements specified in the spreadsheet are consistent with Chapter II.C.1.e of the NSF Proposal and Award Policies and Procedures Guide. The spreadsheet has been developed to be fillable, however, the content and format requirements must not be altered by the user. This spreadsheet must be saved in .xlsx or .xls format and directly uploaded into FastLane as a Collaborators and Other Affiliations Single Copy Document. It should be noted that the template has been tested in Microsoft Excel, Google Sheets, and LibreOffice. FastLane will convert the uploaded .xlsx or .xls files to .PDF. Using the .xlsx or .xls format will enable preservation of searchable

---

text that otherwise would be lost. It is imperative that this document be uploaded in .xlsx or .xls only. Uploading a document in any format other than .xlsx or .xls may delay the timely processing and review of your proposal.”

- **RESOURCE REMINDER: SPIN Grants Database**

  SPIN (Sponsored Programs Information Network) provides up-to-date information on current national and international government and private funding sources, including fellowships, research grants, publication support, sabbatical support, curriculum development, and more. Accessible to anybody on campus using Dickinson’s internet connection. SPIN is also accessible to anybody off campus after a SPIN profile has been established. If you would like to create a SPIN profile and receive summaries of grant opportunities based on keywords related to your research sent automatically to you by email, please contact Ben Sweger.

  Check out the helpful SPIN training videos at [https://spin.infoedglobal.com/Home/TrainingVideos](https://spin.infoedglobal.com/Home/TrainingVideos) (suggested browsers: Google Chrome or Mozilla Firefox).

  If you find a funding opportunity using SPIN, notify Glen or Ben so that we can assist you with the proposal preparation and submission processes.

- **Grant reviewer’s suggestion:** Faculty need to ensure that their websites are up-to-date at all times. Reviewers often refer to these websites when reviewing proposals.

**IMPORTANT INFORMATION FROM FINANCIAL OPERATIONS**

• Ensuring that all awards and grants are duly recognized by the College and properly reflected in the financial records is important. All award funds should go directly to the College Advancement Office so that we can process them in Banner. The Gift Recorder (Jen Acuna) enters the funds in Banner so that they are recorded in College Advancement’s records and in the financial records in accounts restricted for that award. The College Advancement and Financial Operations offices work together closely to make sure this process captures all College awards. If you receive an award, please make sure to contact one of these offices.

• **Cost Share Guidelines:** If a proposal requires cost sharing, the commitment of institutional resources must be noted on the External Grant Notification/Clearance Form that is circulated among the senior officers of the College for approval. If the College receives the award that includes cost sharing in the approved budget, the College is obligated to record these costs in the financial records and these cost share expenses are subject to audit. Please be sure to discuss cost sharing with the Sponsored Projects Office and/or Financial Operations offices prior to submitting proposals.

• Every grant or award has a unique account number (called FOAPAL) to track activity specific to that award. These numbers are assigned by Financial Operations when award letters are received. Kevin Crist tracks activity in accounts and sends quarterly spreadsheets to Financial Managers for their information and review. As a Financial Manager, you have the ability to review real time expenditures via Banner Self-Service. Please contact Miriam McMechen to inquire about Self-Service training offerings and direct specific questions about finances on awards to Kevin.

• If you have recommendations about information that would be useful for managing your grants (additional analysis, open sessions, Banner training, one-on-one assistance, etc.), please contact Kevin Crist.
