GRANT OPPORTUNITIES

DIVISION I (See also “All College” listings, as they may apply to your interests)

- **National Endowment for the Humanities - Fellowships.** For more information, visit [https://www.neh.gov/grants/research/fellowships](https://www.neh.gov/grants/research/fellowships). Deadline: April 11, 2018

- **National Endowment for the Arts - Challenge America.** This opportunity offers support primarily to small and mid-sized organizations for projects that extend the reach of the arts to underserved populations -- those whose opportunities to experience the arts are limited by geography, ethnicity, economics, or disability. Age alone (e.g., youth, seniors) does not qualify a group as underserved; at least one of the underserved characteristics noted above also must be present. Please provide details about the underserved audience you select in your application. Grants are available for professional arts programming and for projects that emphasize the potential of the arts in community development. For more information, visit [https://www.arts.gov/grants-organizations/challenge-america/grant-program-description](https://www.arts.gov/grants-organizations/challenge-america/grant-program-description). Deadline: April 12, 2018

- **MacDowell Colony - Fellowship.** For more information, visit [http://macdowellcolony.org/apply-appguidelines.html](http://macdowellcolony.org/apply-appguidelines.html). Deadlines: April 15, 2018; September 15, 2018; January 15, 2019

- **Kimmel Harding Nelson Center for the Arts - Residency Program.** For more information, visit [http://www.khncenterforthearts.org/application_process.php](http://www.khncenterforthearts.org/application_process.php). Deadline: September 1, 2018

- **American Academy in Rome - Rome Prize.** For more information, visit [http://www.aarome.org/apply](http://www.aarome.org/apply). Deadline: November 1, 2018

- **Wellcome Trust - Small Grants in Humanities and Social Science.** For more information, visit [https://wellcome.ac.uk/funding/small-grants-humanities-and-social-science](https://wellcome.ac.uk/funding/small-grants-humanities-and-social-science). Deadline: proposals accepted anytime

- **Schuylkill Center for Environmental Education - Artist-in-Residence.** For more information, visit [http://www.schuylkillcenter.org/departments/art/opportunities/artist_guidelines.html](http://www.schuylkillcenter.org/departments/art/opportunities/artist_guidelines.html). Deadline: not provided

Division II (See also “All College” listings, as they may apply to your interests)

- Spencer Foundation - Small Research Grants. This program aims to support smaller scale or pilot research projects that have budgets of $50,000 or less. Proposals are encouraged from scholars across a variety of disciplines in an effort to fund field-initiated education research. For more information, visit http://www.spencer.org/small-research-grants. Deadlines: May 1, 2018; August 1, 2018; November 1, 2018

- National Institutes of Health - Education and Health: New Frontiers (R01) Clinical Trial Optional. NIH and its participating Institutes and Centers invite applications for research that will further elucidate the pathways involved in the relationship between education and health outcomes and in doing so to carefully identify the specific aspects and qualities of education that are responsible for this relationship and what the mediating factors are that affect the nature of the causal relationship. For more information, visit https://grants.nih.gov/grants/guide/pa-files/PAR-18-387.html. Deadlines: May 7, 2018; June 5, 2018; September 7, 2018; October 5, 2018; January 7, 2019

- National Institutes of Health - Methodology and Measurement in the Behavioral and Social Sciences (R01 Clinical Trial Optional). For more information, visit https://grants.nih.gov/grants/guide/pa-files/PAR-18-352.html. Deadlines: May 7, 2018; June 5, 2018; September 7, 2018; October 5, 2018; January 7, 2019

- National Science Foundation - Smart and Connected Health. For more information, visit https://www.nsf.gov/pubs/2018/nsf18541/nsf18541.htm. Deadlines: May 22, 2018; December 11, 2018; December 11, 2019

- National Institutes of Health - Education and Health: New Frontiers (R01) Clinical Trial Optional. The goal of this funding opportunity announcement is to support research that will further elucidate the pathways involved in the relationship between education and health outcomes and in doing so to carefully identify the specific aspects and qualities of education that are responsible for this relationship and what the mediating factors are that affect the nature of the causal relationship. For more information, visit https://grants.nih.gov/grants/guide/pa-files/PAR-18-387.html. Deadlines: June 5, 2018; October 5, 2018; February 5, 2019

• **National Science Foundation - Major Research Instrumentation Program (MRI)**. This program serves to increase access to shared scientific and engineering instruments for research and research training in our Nation’s institutions of higher education, not-for-profit museums, science centers and scientific/engineering research organizations. The program provides organizations with opportunities to acquire major instrumentation that supports the research and research training goals of the organization and that may be used by other researchers regionally or nationally. For more information, visit [https://www.nsf.gov/pubs/2018/nsf18513/nsf18513.htm](https://www.nsf.gov/pubs/2018/nsf18513/nsf18513.htm). Deadlines: January 22, 2019; January 19, 2020

• **National Institutes of Health - NICHD Research Education Programs (R25 Clinical Trial Optional)**. For more information, visit [https://www.grants.gov/web/grants/view-opportunity.html?oppId=299099](https://www.grants.gov/web/grants/view-opportunity.html?oppId=299099). Deadline: May 25, 2019

• **National Science Foundation - Research Coordination Networks (RCN)**. The goal of the RCN program is to advance a field or create new directions in research or education by supporting groups of investigators to communicate and coordinate their research, training and educational activities across disciplinary, organizational, geographic and international boundaries. The RCN program provides opportunities to foster new collaborations, including international partnerships, and address interdisciplinary topics. Innovative ideas for implementing novel networking strategies, collaborative technologies, training, broadening participation, and development of community standards for data and meta-data are especially encouraged. For more information, visit [https://www.nsf.gov/pubs/2017/nsf17594/nsf17594.htm](https://www.nsf.gov/pubs/2017/nsf17594/nsf17594.htm). Deadline: proposals accepted anytime

- **National Institutes of Health - Bridges to the Baccalaureate Program (R25).** This opportunity invites applications that propose research education activities in the mission areas of the NIH. The overarching goal of this program is to support educational activities that enhance the diversity of the biomedical research workforce. To accomplish this goal, funded programs will support creative educational activities with a primary focus on Courses for Skills Development, Research Experiences, and Curriculum or Methods Development. A program application must include each activity, and describe how they will be synergized to make a comprehensive program. This program is intended to provide these activities to community college students to increase transition to and completion of Bachelor's degree in biomedical sciences. This program requires partnerships between community colleges or other two-year post-secondary educational institutions granting the associate degree with colleges or universities that offer the baccalaureate degree. Additionally, recruitment and retention plans are required as part of the application. For more information, visit [https://grants.nih.gov/grants/guide/pa-files/PAR-17-210.html](https://grants.nih.gov/grants/guide/pa-files/PAR-17-210.html). Deadlines: September 25, 2018

- National Science Foundation - Cyberlearning for Work at the Human-Technology Frontier. For more information, visit
National Science Foundation - Major Research Instrumentation Program (MRI). This program serves to increase access to shared scientific and engineering instruments for research and research training in our Nation’s institutions of higher education, not-for-profit museums, science centers and scientific/engineering research organizations. The program provides organizations with opportunities to acquire major instrumentation that supports the research and research training goals of the organization and that may be used by other researchers regionally or nationally. For more information, visit https://www.nsf.gov/pubs/2018/nsf18513/nsf18513.htm. Deadlines: January 22, 2019; January 19, 2020

National Institutes of Health - Postbaccalaureate Research Education Program (PREP) (R25). For more information, visit http://grants.nih.gov/grants/guide/pa-files/PAR-17-051.html. Deadline: January 24, 2019

National Science Foundation - NSF Scholarships in Science, Technology, Engineering, and Mathematics Program (S-STEM). A well-educated STEM workforce is a significant contributor to maintaining the competitiveness of the U.S. in the global economy. The NSF S-STEM program addresses the need for a high quality STEM workforce in STEM disciplines supported by the program and for the increased success of low-income academically talented students with demonstrated financial need who are pursuing associate, baccalaureate, or graduate degrees in STEM. For more information, visit https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5257&WT.mc_id=USNSF_43&WT.mc_ev=click. Deadlines: March 27, 2019; March 25, 2020

• National Institutes of Health - NIH Science Education Partnership Award (SEPA) (R25). For more information, visit http://www.grants.gov/web/grants/view-opportunity.html?oppId=297539. Deadline: July 9, 2019

• National Institutes of Health - BRAIN Initiative: Theories, Models and Methods for Analysis of Complex Data from the Brain (R01 Clinical Trial Not Allowed). For more information, visit http://www.grants.gov/web/grants/view-opportunity.html?oppId=297947. Deadline: October 17, 2019

• National Institutes of Health - Ruth L. Kirschstein National Research Service Award (NRSA) Individual Postdoctoral Fellowship (Parent F32). This opportunity is designed specifically for applicants proposing research that does not involve leading an independent clinical trial, a clinical trial feasibility study, or an ancillary study to a clinical trial, but does allow applicants to propose a research experience in a clinical trial led by a sponsor or co-sponsor. For more information, visit https://grants.nih.gov/grants/guide/pa-files/PA-18-670.html. Deadline: January 8, 2021 (expiration date)

• National Institutes of Health - Ruth L. Kirschstein National Research Service Award (NRSA) Individual Senior Fellowship (Parent F33). This opportunity provides senior individual research training fellowships to experienced scientists who wish to make major changes in the direction of their research careers or who wish to broaden their scientific background by acquiring new research capabilities as independent investigators in research fields relevant to the missions of participating NIH Institutes and Centers. For more information, visit https://grants.nih.gov/grants/guide/pa-files/PA-18-672.html. Deadline: January 8, 2021 (expiration date)

• National Science Foundation - Dear Colleague Letter: Life STEM. Through this DCL, NSF invites eligible organizations to submit research proposals that inform, create, implement, and evaluate models of intervention that will advance the knowledge base for establishing and retaining underrepresented minorities in STEM fields with particular attention to life science and the biosciences. Researchers from minority-serving institutions, including Historically Black Colleges and Universities, Hispanic-Serving Institutions, and Tribal Colleges and Universities, are particularly encouraged to apply. Proposals should partner eligible organizations with local elementary, middle or high schools to foster collaborative relationships between K-12 science educators and the research community. The activities may occur in formal and/or informal settings. Proposals may address science topics and activities related to curriculum development, teacher support, and student engagement. Proposals should describe effective methods to disseminate findings broadly to the K-16 science education community. Researchers are invited to submit proposals to one of many programs. For more information, visit https://www.nsf.gov/pubs/2017/nsf17127/nsf17127.jsp?WT.mc_id=USNSF_25&WT.mc_ev=click. Deadlines vary

• National Science Foundation - Computational and Data-Enabled Science and Engineering. For more information, visit https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=504813&WT.mc_id=USNSF_39&WT.mc_ev=click. Deadlines vary

• National Science Foundation - Research Coordination Networks (RCN). The goal of the RCN program is to advance a field or create new directions in research or education by supporting groups of investigators to communicate and coordinate their research, training and educational activities across disciplinary, organizational,
geographic and international boundaries. The RCN program provides opportunities to foster new collaborations, including international partnerships, and address interdisciplinary topics. Innovative ideas for implementing novel networking strategies, collaborative technologies, training, broadening participation, and development of community standards for data and meta-data are especially encouraged. For more information, visit https://www.nsf.gov/pubs/2017/nsf17594/nsf17594.htm. Deadline: proposals accepted anytime

• U.S. Department of Energy - Laboratory Equipment Donation Program. This is a great opportunity to acquire needed equipment at no cost. For more information, visit http://www.osti.gov/ledp/online_application.jsp.

All College

• Spencer Foundation - Small Research Grants. This program aims to support smaller scale or pilot research projects that have budgets of $50,000 or less. Proposals are encouraged from scholars across a variety of disciplines in an effort to fund field-initiated education research. For more information, visit http://www.spencer.org/small-research-grants. Deadlines: May 1, 2018; August 1, 2018; November 1, 2018; February 1, 2019

• William T. Grant Foundation - Research Grants. This opportunity supports research that focuses on ways to reduce disparities in academic, behavioral, social, and economic outcomes for youth. Priority will be given to projects related to inequality related to economic, racial/ethnic, and language background, but research that explores other areas will also be considered based on a compelling case for its impact. For more information, visit http://wtgrantfoundation.org/grants/research-grants. Deadlines (letters of inquiry): May 2, 2018; August 1, 2018

• Corporation for National and Community Service - 2018 AmeriCorps State and National Grants - Targeted Priority. AmeriCorps grants are awarded to eligible organizations proposing to engage AmeriCorps members in evidence-based or evidence-informed interventions to strengthen communities. An AmeriCorps member is an individual who engages in community service through an approved national service position. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members earn a Segal AmeriCorps Education Award from the National Service Trust that members can use to pay for higher education expenses or apply to qualified student loans. For more information, visit https://www.grants.gov/web/grants/view-opportunity.html?oppId=300415. Deadline: May 2, 2018

• U.S. Department of Agriculture, National Institute of Food and Agriculture - Higher Education Challenge Grants Program. Projects supported by this program will: (1) address a state, regional, national, or international educational need; (2) involve a creative or non-traditional approach toward addressing that need that can serve as a model to others; (3) encourage and facilitate better working relationships in the university science and education community, as well as between universities and the private sector, to enhance program quality and supplement
available resources; and (4) result in benefits that will likely transcend the project duration and USDA support. For more information, visit [https://www.grants.gov/web/grants/view-opportunity.html?oppId=301301](https://www.grants.gov/web/grants/view-opportunity.html?oppId=301301). Deadline: May 7, 2018

- **National Socio-Environmental Synthesis Center - Sabbatical & Research Fellowships.** Sabbatical Fellowships (2-12 months) support social, environmental, or cyberinfrastructure research activities that will advance the mission of SESYNC. For more information, visit [http://www.sesync.org/sabbatical-and-research-fellowships](http://www.sesync.org/sabbatical-and-research-fellowships). Deadlines: May 15, 2018; October 15, 2018

- **National Archives and Records Administration - Publishing Historical Records in Documentary Editions.** The National Historical Publications and Records Commission seeks proposals to publish documentary editions of historical records. Projects may focus on the papers of major figures from American history or cover broad historical movements in politics, social reform, business, military, the arts, and other aspects of the national experience. The historical value of the records and their expected usefulness to broad audiences must justify the costs of the project. The goal of this program is to provide access to, and editorial context for, the historical documents and records that tell the American story. Applicants should demonstrate familiarity with the best practices recommended by the Association for Documentary Editing or the Modern Language Association Committee on Scholarly Editions. For more information, visit [https://www.archives.gov/nhprc/announcement/editions.html](https://www.archives.gov/nhprc/announcement/editions.html). Deadlines: June 13, 2018; October 4, 2018

- **Council for the International Exchange of Scholars - 2019-2020 Fulbright Scholar Program.** For other eligibility requirements and detailed award descriptions visit our website at [http://www.cies.org/us_scholars/us_awards/](http://www.cies.org/us_scholars/us_awards/) or contact scholars@iie.org. Deadline (for most awards): August 1, 2018
  - **If I already had a Fulbright, can I get another one?**
    - Restrictions regarding previous Fulbright experiences have been lifted by the J. William FulbrightForeign Scholarship Board. The board reiterated its strong preference for Fulbright Scholar opportunities to be given to candidates who have not previously received a Fulbright Scholar grant, as stipulated in section 624.2 of the Fulbright Program Policies.

- **National Science Foundation - Research Experiences for Undergraduates.** The REU Sites program is based on independent proposals to initiate and conduct projects that engage a number of students in research. REU Sites may be based in a single discipline or academic department, or on interdisciplinary or multi-department research opportunities with a coherent intellectual theme. Proposals with an international dimension are welcome. For more information, visit [http://www.nsf.gov/pubs/2013/nsf13542/nsf13542.htm](http://www.nsf.gov/pubs/2013/nsf13542/nsf13542.htm). Deadlines: August 22, 2018

- **National Science Foundation - Robert Noyce Teacher Scholarship Program.** This program seeks to encourage talented science, technology, engineering, and mathematics majors and professionals to become K-12 STEM teachers. The program invites creative and innovative proposals that address the critical need for recruiting and preparing highly effective K-12 STEM teachers, especially in high-need local educational agencies. For more information, visit [https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5733&WT.mc_id=USNSF_39&WT.mc_ev=click](https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5733&WT.mc_id=USNSF_39&WT.mc_ev=click). Deadlines: August 28, 2018; August 27, 2019

- **National Science Foundation - Documenting Endangered Languages – Data, Infrastructure and Computational Methods.** This funding partnership between the NSF and the National Endowment for the Humanities supports projects to develop and advance knowledge concerning endangered human languages. For more information, visit [https://www.nsf.gov/pubs/2016/nsf16576/nsf16576.htm](https://www.nsf.gov/pubs/2016/nsf16576/nsf16576.htm). Deadlines: September 15, 2018; September 15, 2019

EXTRAORDINARY OPPORTUNITY:

FACULTY DEVELOPMENT OPPORTUNITIES

• American Association of University Women
  o AAUW is currently recruiting faculty to serve on applicant review and selection panels for the following programs:
    ▪ American Fellowships
    ▪ Career Development Grants
    ▪ Community Action Grants
    ▪ International Fellowships
    ▪ Selected Professions Fellowships

• Council on Undergraduate Research
  o CUR Registry of Undergraduate Researchers:
    The Council on Undergraduate Research Registry of Undergraduate Researchers is one tool that undergraduate students can use to assist them in their pursuit of a graduate degree. This registry facilitates “matchmaking” between undergraduates with research experience and a desire to pursue an advanced degree, and graduate schools seeking high-quality students who are well prepared for research. Currently the registry is open to students and graduate schools/employers in nearly all fields. For more information, visit www.cur.org/ugreg/.

  o CUR Conferences and Events:
    For more information, visit http://www.cur.org/conferences_and_events/.
• **Grinnell College Data Science Workshop**
  - **Data Science: Computation and Visualization**
    Sponsored by a grant on data science in the liberal arts made by Iowa’s Roy J. Carver Charitable Trust to Grinnell College, this workshop focuses on incorporating data-based decision making and visualization techniques into courses from all disciplines. We also hope to promote connections among faculty with similar teaching and research interests, and to conceive, vet, and implement curricular materials (syllabi, instructional modules, assignments, and labs) that cultivate in students the skills to organize, filter, analyze, and display data sets of increasing size and complexity. We also hope to foster conversations among participants about the place of these topics in the liberal arts curriculum. The workshop, meals, and housing are covered for workshop participants. Each participant is responsible for transportation costs. The workshop will begin at 9:30 a.m. on Monday, June 11, 2018, and ends at 3 p.m. on Wednesday, June 13, 2018. **Review of applications and selection of participants will begin on March 31, 2018. Complete the application form in advance of this date for full consideration.** For more information, visit [http://gcdata.sites.grinnell.edu/](http://gcdata.sites.grinnell.edu/).

New NSF Account Management System Effective March 26, 2018

Dear Colleagues:

The National Science Foundation (NSF) is making major changes to the way the research community registers for NSF accounts and maintains account and user profile information in FastLane and Research.gov. Effective March 26, 2018, NSF is introducing a new centralized and streamlined account registration process in Research.gov for the research community that will provide each new user with a single profile and unique identifier (i.e., NSF ID) for signing in to FastLane and Research.gov for proposal and award activities.

New Functionality

The new account management functionality will:

- Allow users to create and self-manage accounts, including personal information and role requests;
- Eliminate the need for organizational Administrators to create accounts and maintain profile information for their users, allowing Administrators to focus on managing roles for their organizations through a dashboard with functions to approve, disapprove, assign, and remove roles; and
- Replace the existing FastLane and Research.gov account management functions.

Existing NSF Accounts

Existing NSF account holders, including Grants.gov and Application Submission Web Service (ASWS) users, will be migrated to the new account management system through a simple, one-time operation when initially signing in to FastLane or Research.gov after the new functionality is released. Account holders will be required to verify information to transfer it to the new system. Each user will have one NSF ID per the Proposal & Award Policies & Procedures Guide (NSF 18-1), Chapter I.G.4.
Helpful Links

- Users with existing NSF accounts can access the NSF ID Lookup page for their NSF ID. Forgotten passwords for established NSF accounts may be retrieved here.
- New users will be able to register directly with NSF through Research.gov on or after March 26, 2018, via this link: https://www.research.gov/accountmgmt/#/registration. Note that this link will not work until March 26, 2018.

Notes About Grants.gov and ASWS

- Beginning on March 26, 2018, the Principal Investigator (PI), all co-PIs, and the Authorized Organizational Representative (AOR) listed on a Grants.gov proposal must all be registered with NSF prior to proposal submission. NSF IDs for the PI, all co-PIs, and the AOR listed will need to be included in the proposal submission.
- When a proposal is submitted to NSF on or after March 26, 2018, through Grants.gov and ASWS, the NSF system will cross-check the DUNS number and organization name with NSF records.
  - If there is no match to the DUNS number and/or organization name, the proposal will be rejected and the PI/AOR listed on the proposal submission will receive an email notifying that the proposal submission was not accepted by NSF.
  - Currently, for proposals submitted via Grants.gov or ASWS, the NSF system registers organizations and will allow proposal submission in cases where there is a mismatch of the DUNS number and/or organization name with NSF records; however, this will no longer be possible effective March 26, 2018.

New NSF Registration Requirements for Organizations

- Organizations new to NSF will also register via the account management system in Research.gov.
- New organizations will be able to register directly with NSF through Research.gov on or after March 26, 2018, via this link: https://www.research.gov/accountmgmt/#/registration. Note that this link will not work until March 26, 2018.
- Beginning on March 26, 2018, before a new organization can register with NSF, it must first be registered in the System for Award Management (SAM; https://www.sam.gov) and have a data universal numbering system (DUNS) number.
- Organizations not already registered with NSF should be aware that completion of the SAM registration process could take up to two weeks.
- Note that the vast majority of universities are already registered with NSF via FastLane.

Planned Releases

The new centralized account management functionality is being released first to the Administrator, PI, AOR, Sponsored Project Officer (SPO), Graduate Research Fellowship Program (GRFP) Coordinating Official and Financial Official, and Award Cash Management Service (ACM$) groups. NSF plans to eventually expand the new functionality in the future to additional groups including proposal reviewers, GRFP applicants, and NSF staff.

Training Resources

NSF is currently finalizing new account management training resources such as job aids, Frequently Asked Questions (FAQs), and instructional videos. These materials will soon be available on an “About Account Management” page accessible on the Research.gov homepage.

For IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 or rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.

Regards,

The Research.gov Team at the National Science Foundation
Dear Colleagues:

The National Science Foundation (NSF) is pleased to announce that beginning on April 30, 2018, proposers will be able to prepare and submit full, research non-collaborative proposals in Research.gov. The initial release of this new Research.gov capability will run in parallel with existing FastLane proposal preparation and submission capabilities, so proposers can choose to prepare and submit full, research non-collaborative proposals in Research.gov or in FastLane starting on April 30, 2018.

Research.gov Proposal Preparation Site Preview

The other exciting news that we want to share is that starting today, NSF is previewing the new Research.gov proposal preparation functionality to the research community to collect preliminary feedback and to provide the community an opportunity to acclimate to the new technology. The preview can be accessed by selecting the “Prepare & Submit Proposals” tab on the top navigation bar after signing in to Research.gov and then choosing “Prepare Proposal.” This preview will continue until 8:00PM EDT on April 27, 2018, and will allow any research community user with a FastLane or Research.gov account to sample the following proposal preparation features prior to the initial release on April 30, 2018:

- Initiate full, research non-collaborative proposals (other proposal types are planned for future releases);
- Add Principal Investigators (PIs), Co-PIs, Senior Personnel, and Other Authorized Users;
- Upload required proposal documents;
- Create budgets;
- Check compliance; and
- Enable Sponsored Project Officer (SPO)/Authorized Organizational Representative (AOR) access for review.

Please be aware of the following important items as you test the new functionality during the preview period:

- All test data entered on the Research.gov proposal preparation site from February 26, 2018, until the preview concludes at 8:00PM EDT on April 27, 2018, will be deleted at the end of the preview period.
- NSF will not be able to recover any proposal test data entered during the preview period and deleted by NSF after the preview period concludes.
- Information entered on the Research.gov proposal preparation site during the preview period will not be submitted to NSF.
- Test data can be entered on the Research.gov proposal preparation site but actual proposals cannot be submitted to NSF via Research.gov during the preview period.
- Additional information will be available on a Research.gov “About Proposal Preparation & Submission Site” page accessible on the Research.gov homepage.

Feedback on the New Research.gov Proposal Preparation and Submission Site

Your feedback on the new Research.gov proposal preparation functionality during the preview period (February 26, 2018 through April 27, 2018) and on the full Research.gov proposal preparation and submission functionality after the initial release on April 30, 2018, is vital to NSF. The survey link will soon be available on the Research.gov “About Proposal Preparation & Submission Site” page. Feedback from the community and NSF staff will be used to implement enhancements and expand functionality incrementally, with the goal of eventually transitioning all proposal preparation and submission functionality from FastLane to Research.gov.

NSF’s goals for the new Research.gov proposal preparation and submission functionality are to:

- Modernize the applications supporting the proposal submission and merit review processes and improve the user experience via the development of a new application;
- Reduce the administrative burden to the research community and NSF staff associated with preparation, submission, and management of proposals;
Incr
crease efficiencies in proposal preparation, submission, and management;
Improve data quality and capture proposal content in a way that supports data analytics; and
Improve availability, security, and flexibility of proposal preparation and submission IT systems.

We invite you to keep these goals in mind as you prepare and submit your feedback on the new functionality, so that we may improve the new Research.gov interface and develop additional available features.

For IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 or rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.

Regards,
The Research.gov Team at the National Science Foundation

**Important Notice No. 144: Harassment**

**Important Notice to Presidents of Universities and Colleges and Heads of Other National Science Foundation Grantee Organizations**

February 8, 2018

The National Science Foundation (NSF) does not tolerate sexual harassment, or any kind of harassment, within the agency, at grantee organizations, field sites, or anywhere NSF-funded science and education are conducted. The 2,000 American colleges, universities and other institutions that receive NSF funds are responsible for fully investigating complaints and for complying with federal non-discrimination law.

As the primary funding agency of fundamental science and engineering research in the United States, NSF is committed to promoting safe, productive research and education environments for current and future scientists and engineers. We consider the Principal investigator (PI) and any co-PI(s) identified on an NSF award to be in positions of trust. The PI and co-PI and all grant personnel must comport themselves in a responsible and accountable manner, including during the performance of award activities conducted outside the organization, such as at field sites or facilities, or during conferences and workshops.

To bolster our commitment to a safe research environment, NSF is taking the following steps:

1. **New Award Requirements:** NSF has developed a new award term and condition that will require grantee organizations to report findings of sexual harassment, or any other kind of harassment regarding a PI or co/PI or any other grant personnel. The award term and condition also will require the grantee to report the placement of the PI or co-PI on administrative leave relating to a harassment finding or investigation. This term and condition will make it clear that NSF may take unilateral action as necessary to protect the safety of all grant personnel, to include suspending or terminating an award or requiring the grantee to replace or remove personnel. NSF will solicit feedback on this new award term and condition through its Proposal and Award Policies and Procedures Guide Federal Register process within the next several weeks.

2. **Harassment-Free Research Workplaces:** NSF expects all awardee organizations to establish and maintain clear and unambiguous standards of behavior to ensure harassment-free workplaces wherever science is conducted, including notification pathways for all personnel, including students, on the primary and supplemental awards. This expectation includes activities at all research facilities and field sites and during conferences and workshops. All such settings should have accessible and evident means for reporting violations and awardee organizations should exercise due diligence with timely investigations of allegations and corrective actions.

3. **Enhanced Web Resources:** The NSF Office of Diversity and Inclusion (ODI) is tasked with seeking to ensure that NSF-funded programs and projects are free of discrimination. ODI recently launched a dedicated web portal to consolidate policies and procedures, promising practices, and frequently asked questions relating to sexual and other forms of harassment with the intent of making it easier for the research community and the public to access
information. This portal is where NSF will continue to add content related to ending harassment. To access the portal, please visit NSF.gov/harassment.

NSF is working to make certain that awardee organizations respond promptly and appropriately to instances of sexual and all other forms of harassment. A community effort is essential to eliminate sexual and other harassment in science and to build scientific workspaces where people can learn, grow and thrive.

IMPORTANT INFORMATION FROM FINANCIAL OPERATIONS

- Ensuring that all awards and grants are duly recognized by the College and properly reflected in the financial records is important. All award funds should go directly to the College Advancement Office so that we can process them in Banner. The Gift Recorder (Jen Acuna) enters the funds in Banner so that they are recorded in College Advancement’s records and in the financial records in accounts restricted for that award. The College Advancement and Financial Operations offices work together closely to make sure this process captures all College awards. If you receive an award, please make sure to contact one of these offices.

- **Cost Share Guidelines:** If a proposal requires cost sharing, the commitment of institutional resources must be noted on the [External Grant Notification/Clearance Form](#) that is circulated among the senior officers of the College for approval. If the College receives the award that includes cost sharing in the approved budget, the College is obligated to record these costs in the financial records and these cost share expenses are subject to audit. Please be sure to discuss cost sharing with the [Sponsored Projects Office](#) and/or [Financial Operations](#) offices prior to submitting proposals.

- Every grant or award has a unique account number (called FOAPAL) to track activity specific to that award. These numbers are assigned by Financial Operations when award letters are received. Christine Hock tracks activity in accounts and sends quarterly spreadsheets to Financial Managers for their information and review. As a Financial Manager, you have the ability to review real time expenditures via Banner Self-Service. Please contact Miriam McMchen to inquire about Self-Service training offerings and direct specific questions about finances on awards to Christine.

- If you have recommendations about information that would be useful for managing your grants (additional analysis, open sessions, Banner training, one-on-one assistance, etc.), please contact Christine Hock.
