National Science Foundation - Major Research Instrumentation Program (MRI). This program serves to increase access to shared scientific and engineering instruments for research and research training in our Nation’s institutions of higher education, not-for-profit museums, science centers and scientific/engineering research organizations. The program provides organizations with opportunities to acquire major instrumentation that supports the research and research training goals of the organization and that may be used by other researchers regionally or nationally. For more information, visit [https://www.nsf.gov/pubs/2018/nsf18513/nsf18513.htm](https://www.nsf.gov/pubs/2018/nsf18513/nsf18513.htm). Deadlines: January 22, 2019; January 19, 2020

• **National Science Foundation - Research Coordination Networks (RCN).** The goal of the RCN program is to advance a field or create new directions in research or education by supporting groups of investigators to communicate and coordinate their research, training and educational activities across disciplinary, organizational, geographic and international boundaries. The RCN program provides opportunities to foster new collaborations, including international partnerships, and address interdisciplinary topics. Innovative ideas for implementing novel networking strategies, collaborative technologies, training, broadening participation, and development of community standards for data and meta-data are especially encouraged. - National Institutes of Health - Bridges to the Baccalaureate Program (R25). This opportunity invites applications that propose research education activities in the mission areas of the NIH. The overarching goal of this program is to support educational activities that enhance the diversity of the biomedical research workforce. To accomplish this goal, funded programs will support creative educational activities with a primary focus on Courses for Skills Development, Research Experiences, and Curriculum or Methods Development. A program application must include each activity, and describe how they will be synergized to make a comprehensive program. This program is intended to provide these activities to community college students to increase transition to and completion of Bachelor's degree in biomedical sciences. This program requires partnerships between community colleges or other two-year post-secondary educational institutions granting the associate degree with colleges or universities that offer the baccalaureate degree. Additionally, recruitment and retention plans are required as part of the application. For more information, visit https://grants.nih.gov/grants/guide/pa-files/PAR-17-210.html. Deadlines: September 25, 2018

- National Science Foundation - Division of Mathematical Sciences - Foundations. The program in Foundations supports research in mathematical logic and the foundations of mathematics, including proof theory, recursion theory, model theory, set theory, and infinitary combinatorics. • National Institutes of Health - Ruth L. Kirschstein National Research Service Award (NRSA) Individual Postdoctoral Fellowship (Parent F32). This opportunity is designed specifically for applicants proposing research that does not involve leading an independent clinical trial, a clinical trial feasibility study, or an ancillary study to a clinical trial, but does allow applicants to propose a research experience in a clinical trial led by a sponsor or co-sponsor. For more information, visit [https://grants.nih.gov/grants/guide/pa-files/PA-18-670.html](https://grants.nih.gov/grants/guide/pa-files/PA-18-670.html). Deadline: January 8, 2021 (expiration date)

• National Institutes of Health - Ruth L. Kirschstein National Research Service Award (NRSA) Individual Senior Fellowship (Parent F33). This opportunity provides senior individual research training fellowships to experienced scientists who wish to make major changes in the direction of their research careers or who wish to broaden their scientific background by acquiring new research capabilities as independent investigators in research fields relevant to the missions of participating NIH Institutes and Centers. For more information, visit [https://grants.nih.gov/grants/guide/pa-files/PA-18-672.html](https://grants.nih.gov/grants/guide/pa-files/PA-18-672.html). Deadline: January 8, 2021 (expiration date)

• National Science Foundation - Dear Colleague Letter: Life STEM. Through this DCL, NSF invites eligible organizations to submit research proposals that inform, create, implement, and evaluate models of intervention that will advance the knowledge base for establishing and retaining underrepresented minorities in STEM fields with particular attention to life science and the biosciences. Researchers from minority-serving institutions, including Historically Black Colleges and Universities, Hispanic-Serving Institutions, and Tribal Colleges and Universities, are particularly encouraged to apply. Proposals should partner eligible organizations with local elementary, middle or high schools to foster collaborative relationships between K-12 science educators and the research community. The activities may occur in formal and/or informal settings. Proposals may address science topics and activities related to curriculum development, teacher support, and student engagement. Proposals should describe effective methods to disseminate findings broadly to the K-16 science education community. Researchers are invited to submit proposals to one of many programs. For more information, visit [https://www.nsf.gov/pubs/2017/nsf17127/nsf17127.jsp?WT.mc_id=USNSF_25&WT.mc_ev=click](https://www.nsf.gov/pubs/2017/nsf17127/nsf17127.jsp?WT.mc_id=USNSF_25&WT.mc_ev=click). Deadlines vary

National Science Foundation - Research Coordination Networks (RCN). The goal of the RCN program is to advance a field or create new directions in research or education by supporting groups of investigators to communicate and coordinate their research, training and educational activities across disciplinary, organizational, geographic and international boundaries. The RCN program provides opportunities to foster new collaborations, including international partnerships, and address interdisciplinary topics. Innovative ideas for implementing novel networking strategies, collaborative technologies, training, broadening participation, and development of community standards for data and meta-data are especially encouraged. For more information, visit [https://www.nsf.gov/pubs/2017/nsf17594/nsf17594.htm](https://www.nsf.gov/pubs/2017/nsf17594/nsf17594.htm). Deadline: proposals accepted anytime

ALL COLLEGE

• Eisenhower Exchange Fellowships, Inc. - USA Eisenhower Fellowships Program. This program provides proven mid-career leaders with a customized four- or five-week professional experience in one or two countries in the EF network, as well as lifetime membership in a global community of fellows. Fellows hail from all professional fields, and represent the private, public and nonprofit sectors. For more information, visit https://www.efworld.org/our-programs/usa. Deadline: June 1, 2018

• U.S. Department of State, Bureau of Educational and Cultural Affairs - FY 2018 Benjamin Franklin Transatlantic Fellows Summer Institute. This opportunity requests proposals from organizations to provide a four-week U.S.-based institute in the summer of 2019. The Institute will engage 45 teenagers (ages 15-18) from Europe and 10 teenagers from the U.S. The Institute will focus on transatlantic relations, leadership development, critical thinking, diplomacy, community activism, and the media as ways that young adults can unite around their common goals. For more information, visit https://www.grants.gov/web/grants/view-opportunity.html?oppId=303117. Deadline: June 1, 2018

• U.S. Department of State, U.S. Mission to India - EcoCinema: A Greener World through Art. Under this project, a grantee will organize and implement a two-day film and arts festival in Kolkata followed by a tour in a minimum of three cities, focused on generating awareness on creating a sustainable environment in East India and promoting sustainable environmental practices. The selected grantee will initiate a competition for films (both short and long form) and artworks such as paintings, photographs and murals to be showcased during a two-day long film and arts festival. Artworks should focus on the natural world, air quality, sustainability, recycling and green practices.
Films and artwork will be exhibited in tandem at the American Center and other locations in Kolkata. For more information, visit https://www.grants.gov/web/grants/view-opportunity.html?oppId=303073. Deadline: June 12, 2018

- **National Archives and Records Administration - Publishing Historical Records in Documentary Editions.** The National Historical Publications and Records Commission seeks proposals to publish documentary editions of historical records. Projects may focus on the papers of major figures from American history or cover broad historical movements in politics, social reform, business, military, the arts, and other aspects of the national experience. The historical value of the records and their expected usefulness to broad audiences must justify the costs of the project. The goal of this program is to provide access to, and editorial context for, the historical documents and records that tell the American story. Applicants should demonstrate familiarity with the best practices recommended by the Association for Documentary Editing or the Modern Language Association Committee on Scholarly Editions. For more information, visit https://www.archives.gov/nhp/announcement/editions.html. Deadlines: June 13, 2018; October 4, 2018

- **U.S. Department of State - U.S. Mission to Russia - U.S. Embassy Moscow Public Affairs Section FY 2018 Annual Program Statement (APS).** For more information, visit https://www.grants.gov/web/grants/view-opportunity.html?oppId=299419. Deadline: June 30, 2018

- **American Institute of Indian Studies - Senior Scholarly/Professional Development Fellowships.** These fellowships are available both to established scholars who have not previously specialized in Indian studies and to established professionals who have not previously worked or studied in India. Fellows are formally affiliated with an Indian institution. For more information, visit http://www.indiastudies.org/research-fellowship-programs/research-fellowship-application-packet/. Deadline: July 1, 2018

- **American Institute of Indian Studies - Senior Research Fellowships.** These fellowships are designed to enable scholars who specialize in South Asia to pursue further research in India and to establish formal affiliation with an Indian institution. Short-term awards are available for up to 4 months. Long-term awards are available for 6 to 9 months. For more information, visit http://www.indiastudies.org/research-fellowship-programs/research-fellowship-application-packet/. Deadline: July 1, 2018

- **National Resource Center - Paul P. Fidler Research Grant.** This award includes a cash stipend, travel to two national conferences, a presentation at a national conference, and priority consideration for publication. The competition is open to faculty, staff and graduate students who plan to conduct research on issues of college student transitions. Cross-institutional research teams are encouraged to apply. Proposals will be evaluated on the extent to which they focus on issue(s) related to college student transitions. Though all issues related to college student transitions will be considered, special consideration will be given to proposals addressing transitions outside of the first year of college. For more information, visit http://www.sc.edu/fye/research/grant/overview.html. Deadline: July 2, 2018

- **Council for the International Exchange of Scholars - 2019-2020 Fulbright Scholar Program.** For other eligibility requirements and detailed award descriptions visit our website at http://www.cies.org/us_scholars/us_awards/ or contact scholars@iie.org. Deadline (for most awards): August 1, 2018
  - **If I already had a Fulbright, can I get another one?**
    - Restrictions regarding previous Fulbright experiences have been lifted by the J. William Fulbright Foreign Scholarship Board. The board reiterated its strong preference for Fulbright Scholar opportunities to be given to candidates who have not previously received a Fulbright Scholar grant, as stipulated in section 624.2 of the Fulbright Program Policies.

- **Spencer Foundation - Areas of Inquiry - Small Grant Proposals.** Since it was established in 1971, the Spencer Foundation has sought to support high-quality, innovative research with the potential to improve education. In pursuing that goal, they have always had broad ideas about the questions such research might ask, the methods it might use, and the ways in which it might be supported. The Foundation currently accepts proposals for small
research grants, with a budget limit of $50,000. Small grant proposals covering any topic that falls within Spencer’s mission can be submitted through the general small grants program. For more information, visit http://www.spencer.org/small-research-grants. Deadline: August 1, 2018

- William T. Grant Foundation - Research Grants. This opportunity supports research that focuses on ways to reduce disparities in academic, behavioral, social, and economic outcomes for youth. Priority will be given to projects related to inequality related to economic, racial/ethnic, and language background, but research that explores other areas will also be considered based on a compelling case for its impact. For more information, visit http://wtgrantfoundation.org/grants/research-grants. Deadline (letters of inquiry): August 1, 2018

- National Science Foundation - Research Experiences for Undergraduates. The REU Sites program is based on independent proposals to initiate and conduct projects that engage a number of students in research. REU Sites may be based in a single discipline or academic department, or on interdisciplinary or multi-department research opportunities with a coherent intellectual theme. Proposals with an international dimension are welcome. For more information, visit http://www.nsf.gov/pubs/2013/nsf13542/nsf13542.htm. Deadlines: August 22, 2018

- National Science Foundation - Robert Noyce Teacher Scholarship Program. This program seeks to encourage talented science, technology, engineering, and mathematics majors and professionals to become K-12 STEM teachers. The program invites creative and innovative proposals that address the critical need for recruiting and preparing highly effective K-12 STEM teachers, especially in high-need local educational agencies. For more information, visit https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5733&WT.mc_id=USNSF_39&WT.mc_ev=click. Deadlines: August 28, 2018; August 27, 2019

- National Science Foundation - Documenting Endangered Languages – Data, Infrastructure and Computational Methods. This funding partnership between the NSF and the National Endowment for the Humanities supports projects to develop and advance knowledge concerning endangered human languages. For more information, visit https://www.nsf.gov/pubs/2016/nsf16576/nsf16576.htm. Deadlines: September 15, 2018; September 15, 2019

- National Socio-Environmental Synthesis Center - Sabbatical & Research Fellowships. Sabbatical Fellowships (2-12 months) support social, environmental, or cyberinfrastructure research activities that will advance the mission of SESYNC. For more information, visit http://www.sesync.org/sabbatical-and-research-fellowships. Deadlines: October 15, 2018; May 15, 2019

- Rockefeller Foundation - Bellagio Study & Conference Center - International Conferences. Bellagio conferences establish new connections across disciplines and geographies, encourage dynamic, small group interactions, and promote innovative and creative thinking - all in a serene setting conducive to focused, goal-oriented work. For more information, visit https://www.rockefellerfoundation.org/our-work/bellagio-center/conferences/#international-conferences. Deadlines vary

- Humboldt Foundation - Humboldt Research Fellowship for Experienced Researchers. This opportunity is for researchers with above average qualifications, having completed the doctorate less than 12 years ago, already having their own research profile, and are working at least at the level of Assistant Professor or Junior Research Group Leader or have a record of several years of independent academic work. For more information, visit http://www.humboldt-foundation.de/web/1710.html. Deadline: Rolling
FACULTY DEVELOPMENT OPPORTUNITIES

- **American Association of University Women**
  - AAUW is currently recruiting faculty to serve on applicant review and selection panels for the following programs:
    - American Fellowships
    - Career Development Grants
    - Community Action Grants
    - International Fellowships
    - Selected Professions Fellowships

- **Council on Undergraduate Research**
  - **CUR Registry of Undergraduate Researchers:**
    - The Council on Undergraduate Research Registry of Undergraduate Researchers is one tool that undergraduate students can use to assist them in their pursuit of a graduate degree. This registry facilitates “matchmaking” between undergraduates with research experience and a desire to pursue an advanced degree, and graduate schools seeking high-quality students who are well prepared for research. Currently the registry is open to students and graduate schools/employers in nearly all fields. For more information, visit [www.cur.org/ugreg/](http://www.cur.org/ugreg/).

New Research.gov Proposal Preparation and Submission Site Will Launch on April 30, 2018

Dear Colleagues:

Beginning on April 30, 2018, proposers will be able to prepare and submit full, research non-collaborative proposals in the National Science Foundation’s (NSF) Research.gov system. The initial release of this new Research.gov capability will run in parallel with existing FastLane proposal preparation and submission capabilities. As a result, proposers can choose to prepare and submit full, research non-collaborative proposals in Research.gov or in FastLane starting on April 30, 2018. Other proposal types will be added to Research.gov in the future. Please note, proposals initiated in the new system will not be available in FastLane and proposals prepared in FastLane will not be available in the new system. This new system is being developed incrementally and as capabilities are migrated from FastLane to Research.gov, the system features will expand until it eventually replaces FastLane for proposal preparation and submission. There will be no impact to Grants.gov and Application Submission Web Services (ASWS), and NSF will continue to fully support these proposal submission methods.

The Research.gov proposal site modernizes proposal preparation and submission capabilities and focuses on enhancing the user experience and reducing administrative burden with an intuitive interface and real-time compliance checking. The new functionality provides the ability to create, submit, track, and update proposals associated with active NSF funding opportunities and furthers NSF’s goal to provide quick access to proposal information and grants management services in one location.
Research.gov Proposal Preparation Site Preview

On February 26, 2018, NSF began previewing the new Research.gov proposal preparation site to the research community to collect preliminary feedback and to provide the community an opportunity to become familiar with the new interface before the official site launch on April 30, 2018. The preview will continue until 8:00PM EDT on April 27, 2018, and allows any research community user with a FastLane or Research.gov account to test the new Research.gov proposal preparation features.

We encourage you to check out the preview site before April 27, 2018. Please keep in mind that all test data entered on the Research.gov proposal preparation site during the preview period (February 26, 2018 through April 27, 2018) will be deleted before the full site is launched on April 30, 2018.

Feedback on Proposal Preparation Site Preview

Feedback from the research community and NSF staff about proposal preparation in Research.gov during the preview period is critical to NSF and will be used to enhance and expand Research.gov incrementally. Feedback on the Research.gov preview site may be submitted via this link: https://www.surveymonkey.com/r/ProposalPreparation.

Additional Information

Resources including Frequently Asked Questions (FAQs) and a system capabilities release timeline are available on the Research.gov About Proposal Preparation and Submission page. A series of short instructional videos is currently in development and will be posted on the About Proposal Preparation and Submission page.

We hope that you are as excited as we are about the official launch of the Research.gov proposal preparation and submission site for full, research non-collaborative proposals on April 30, 2018!

For IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 or rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.

New NSF Account Management System Effective March 26, 2018

Dear Colleagues:

The National Science Foundation (NSF) is making major changes to the way the research community registers for NSF accounts and maintains account and user profile information in FastLane and Research.gov. Effective March 26, 2018, NSF is introducing a new centralized and streamlined account registration process in Research.gov for the research community that will provide each new user with a single profile and unique identifier (i.e., NSF ID) for signing in to FastLane and Research.gov for proposal and award activities.

New Functionality

The new account management functionality will:

- Allow users to create and self-manage accounts, including personal information and role requests;
- Eliminate the need for organizational Administrators to create accounts and maintain profile information for their users, allowing Administrators to focus on managing roles for their organizations through a dashboard with functions to approve, disapprove, assign, and remove roles; and
- Replace the existing FastLane and Research.gov account management functions.

Existing NSF Accounts
Existing NSF account holders, including Grants.gov and Application Submission Web Service (ASWS) users, will be migrated to the new account management system through a simple, one-time operation when initially signing in to FastLane or Research.gov after the new functionality is released. Account holders will be required to verify information to transfer it to the new system. Each user will have one NSF ID per the Proposal & Award Policies & Procedures Guide (NSF 18-1), Chapter I.G.4.

Helpful Links

- Users with existing NSF accounts can access the NSF ID Lookup page for their NSF ID. Forgotten passwords for established NSF accounts may be retrieved here.
- New users will be able to register directly with NSF through Research.gov on or after March 26, 2018, via this link: https://www.research.gov/accountmgmt/#/registration. Note that this link will not work until March 26, 2018.

Notes About Grants.gov and ASWS

- Beginning on March 26, 2018, the Principal Investigator (PI), all co-PIs, and the Authorized Organizational Representative (AOR) listed on a Grants.gov proposal must all be registered with NSF prior to proposal submission. NSF IDs for the PI, all co-PIs, and the AOR listed will need to be included in the proposal submission.
- When a proposal is submitted to NSF on or after March 26, 2018, through Grants.gov and ASWS, the NSF system will cross-check the DUNS number and organization name with NSF records.
  - If there is no match to the DUNS number and/or organization name, the proposal will be rejected and the PI/AOR listed on the proposal submission will receive an email notifying that the proposal submission was not accepted by NSF.
  - Currently, for proposals submitted via Grants.gov or ASWS, the NSF system registers organizations and will allow proposal submission in cases where there is a mismatch of the DUNS number and/or organization name with NSF records; however, this will no longer be possible effective March 26, 2018.

New NSF Registration Requirements for Organizations

- Organizations new to NSF will also register via the account management system in Research.gov.
- New organizations will be able to register directly with NSF through Research.gov on or after March 26, 2018, via this link: https://www.research.gov/accountmgmt/#/registration. Note that this link will not work until March 26, 2018.
- Beginning on March 26, 2018, before a new organization can register with NSF, it must first be registered in the System for Award Management (SAM; https://www.sam.gov) and have a data universal numbering system (DUNS) number.
- Organizations not already registered with NSF should be aware that completion of the SAM registration process could take up to two weeks.
- Note that the vast majority of universities are already registered with NSF via FastLane.

Planned Releases

The new centralized account management functionality is being released first to the Administrator, PI, AOR, Sponsored Project Officer (SPO), Graduate Research Fellowship Program (GRFP) Coordinating Official and Financial Official, and Award Cash Management Service (ACM$) groups. NSF plans to eventually expand the new functionality in the future to additional groups including proposal reviewers, GRFP applicants, and NSF staff.

Training Resources

NSF is currently finalizing new account management training resources such as job aids, Frequently Asked Questions (FAQs), and instructional videos. These materials will soon be available on an “About Account Management” page accessible on the Research.gov homepage.
For IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 or rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.

**Important Notice No. 144: Harassment**

**Important Notice to Presidents of Universities and Colleges and Heads of Other National Science Foundation Grantee Organizations**

February 8, 2018

The National Science Foundation (NSF) does not tolerate sexual harassment, or any kind of harassment, within the agency, at grantee organizations, field sites, or anywhere NSF-funded science and education are conducted. The 2,000 American colleges, universities and other institutions that receive NSF funds are responsible for fully investigating complaints and for complying with federal non-discrimination law.

As the primary funding agency of fundamental science and engineering research in the United States, NSF is committed to promoting safe, productive research and education environments for current and future scientists and engineers. We consider the Principal investigator (PI) and any co-PI(s) identified on an NSF award to be in positions of trust. The PI and co-PI and all grant personnel must comport themselves in a responsible and accountable manner, including during the performance of award activities conducted outside the organization, such as at field sites or facilities, or during conferences and workshops.

To bolster our commitment to a safe research environment, NSF is taking the following steps:

1. New Award Requirements: NSF has developed a new award term and condition that will require grantee organizations to report findings of sexual harassment, or any other kind of harassment regarding a PI or co-PI or any other grant personnel. The award term and condition also will require the grantee to report the placement of the PI or co-PI on administrative leave relating to a harassment finding or investigation. This term and condition will make it clear that NSF may take unilateral action as necessary to protect the safety of all grant personnel, to include suspending or terminating an award or requiring the grantee to replace or remove personnel. NSF will solicit feedback on this new award term and condition through its Proposal and Award Policies and Procedures Guide Federal Register process within the next several weeks.

2. Harassment-Free Research Workplaces: NSF expects all awardee organizations to establish and maintain clear and unambiguous standards of behavior to ensure harassment-free workplaces wherever science is conducted, including notification pathways for all personnel, including students, on the primary and supplemental awards. This expectation includes activities at all research facilities and field sites and during conferences and workshops. All such settings should have accessible and evident means for reporting violations and awardee organizations should exercise due diligence with timely investigations of allegations and corrective actions.

3. Enhanced Web Resources: The NSF Office of Diversity and Inclusion (ODI) is tasked with seeking to ensure that NSF-funded programs and projects are free of discrimination. ODI recently launched a dedicated web portal to consolidate policies and procedures, promising practices, and frequently asked questions relating to sexual and other forms of harassment with the intent of making it easier for the research community and the public to access information. This portal is where NSF will continue to add content related to ending harassment. To access the portal, please visit NSF.gov/harassment.

NSF is working to make certain that awardee organizations respond promptly and appropriately to instances of sexual and all other forms of harassment. A community effort is essential to eliminate sexual and other harassment in science and to build scientific workspaces where people can learn, grow and thrive.

- RESOURCE REMINDER: SPIN Grants Database

  SPIN (Sponsored Programs Information Network) provides up-to-date information on current national and international government and private funding sources, including fellowships, research grants, publication support, sabbatical support, curriculum development, and more. Accessible to anybody on campus using Dickinson’s internet connection. SPIN is also accessible to anybody off campus after a SPIN profile has been established. If you would like to create a SPIN profile and receive summaries of grant opportunities based on keywords related to your research sent automatically to you by email, please contact Ben. Check out the helpful SPIN training videos at https://spin.infoedglobal.com/Home/TrainingVideos (suggested browsers: Google Chrome or Mozilla Firefox).

  If you find a funding opportunity using SPIN, notify Glen or Ben so that we can assist you with the proposal preparation and submission processes.

- Grant reviewer’s suggestion: Faculty need to ensure that their websites are up-to-date at all times. Reviewers often refer to these websites when reviewing proposals.

IMPORTANT INFORMATION FROM FINANCIAL OPERATIONS

- **Summer 2018 Student Research Projects Logistics:** Arrangements are being made now! To finalize budgetary and living arrangements for students and faculty involved in summer 2018 projects, contact Christine Hock (x8354) in Financial Operations for external grant support projects, or Angie Karas (x1392) for College/R&D-supported research.

- Ensuring that all awards and grants are duly recognized by the College and properly reflected in the financial records is important. All award funds should go directly to the College Advancement Office so that we can process them in Banner. The Gift Recorder (Jen Acuna) enters the funds in Banner so that they are recorded in College Advancement’s records and in the financial records in accounts restricted for that award. The College Advancement and Financial Operations offices work together closely to make sure this process captures all College awards. If you receive an award, please make sure to contact one of these offices.

- **Cost Share Guidelines:** If a proposal requires cost sharing, the commitment of institutional resources must be noted on the External Grant Notification/Clearance Form that is circulated among the senior officers of the College for approval. If the College receives the award that includes cost sharing in the approved budget, the College is obligated to record these costs in the financial records and these cost share expenses are subject to audit. Please be sure to discuss cost sharing with the Sponsored Projects Office and/or Financial Operations offices prior to submitting proposals.

- Every grant or award has a unique account number (called FOAPAL) to track activity specific to that award. These numbers are assigned by Financial Operations when award letters are received. Christine Hock tracks activity in accounts and sends quarterly spreadsheets to Financial Managers for their information and review. As a Financial Manager, you have the ability to review real time expenditures via Banner Self-Service. Please contact Miriam McMenemy to inquire about Self-Service training offerings and direct specific questions about finances on awards to Christine.

- If you have recommendations about information that would be useful for managing your grants (additional analysis, open sessions, Banner training, one-on-one assistance, etc.), please contact Christine Hock.
