  **FOR NSF PROPOSAL WRITERS!**
  There are **new NSF requirements for PDFs submitted** via Fastlane and Research.gov, however this is NOT stated clearly in the Proposal Application Guide (PAPPG). NSF now requires document to be saved in “PDF/A” format, which is ISO compliant prior to upload. To produce a PDF/A document in Adobe Pro, click: File > Save As > More Options > PDF/A.
  
  “PDF/A is an ISO-standardized version of the Portable Document Format (PDF) specialized for use in the archiving and long-term preservation of electronic documents. PDF/A differs from PDF by prohibiting features unsuitable for long-term archiving, such as font linking (as opposed to font embedding) and encryption.[1] The ISO requirements for PDF/A file viewers include color management guidelines, support for embedded fonts, and a user interface for reading embedded annotations.”

**IMPORTANT INFORMATION FROM FINANCIAL OPERATIONS**

- By the end of January, Principal Investigators should have received the quarterly financial spreadsheets for quarter ending 12/31/2018 for their awards. Please use these spreadsheets to view the overall grant financial activity for the current year and the grant in total, making sure the expenses are occurring as budgeted and/or expected. To view detailed transactions and keep updated on all charges, use the Self Service function in Banner. This function allows you to review transactions and see the originating document. Contact Ryan Vann if you have any questions or concerns on the financial activity of your award.

- Ensuring that all awards and grants are duly recognized by the college and properly reflected in the financial records is important. All award funds should go directly to the College Advancement Office so that we can process them in Banner. The Gift Recorder (Jen Acuna) enters the funds in Banner so that they are recorded in College Advancement’s records and in the financial records in accounts restricted for that award. The College Advancement and Financial Operations offices work together closely to make sure this process captures all college awards. If you receive an award, please make sure to contact one of these offices.

- **Cost Share Guidelines:** If a proposal requires cost sharing, the commitment of institutional resources must be noted on the [External Grant Notification/Clearance Form](#) that is circulated among the senior officers of the college for approval. If the college receives the award that includes cost sharing in the approved budget, the college is obligated to record these costs in the financial records and these cost share expenses are subject to audit. Please be sure to discuss cost sharing with the [Sponsored Projects Office](#) and/or [Financial Operations](#) offices prior to submitting proposals.

- Every grant or award has a unique account number (called FOAPAL) to track activity specific to that award. These numbers are assigned by Financial Operations when award letters are received. Ryan Vann tracks activity in accounts and sends quarterly spreadsheets to Financial Managers for their information and review. As a Financial Manager, you have the ability to review real time expenditures via Banner Self-Service. Please contact Miriam McMehen to inquire about Self-Service training offerings and direct specific questions about finances on awards to Ryan.
If you have recommendations about information that would be useful for managing your grants (additional analysis, open sessions, Banner training, one-on-one assistance, etc.), please contact Ryan Vann.
