PAPPG (NSF 19-1) Policy Updates and New Automated Proposal Compliance Checks Coming to FastLane and Research.gov on February 25

Dear Colleagues:

Effective February 25, 2019, the National Science Foundation (NSF) will implement changes in FastLane and Research.gov to support the policy updates in the Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 19-1) and to run new automated proposal compliance checks. The implementation date for the revised PAPPG (NSF 19-1) originally scheduled for January 28, 2019, has been delayed to February 25, 2019, due to the recent lapse in appropriations (December 22, 2018 through January 25, 2019).

Please refer to the complete list of PAPPG (NSF 19-1) significant changes and clarifications which include the IT system changes and applicable business rule updates. System references and links will be updated to corresponding references and links in the PAPPG (NSF 19-1) as appropriate.

The following PAPPG (NSF 19-1) updates will be incorporated:

New Proposal Cover Sheet Checkboxes in FastLane, Research.gov, and Grants.gov:
- A new checkbox will be added to the proposal Cover Sheet to indicate funding for an international branch campus of a U.S. Institution of Higher Education (IHE), including through use of subawards or consultant arrangements. Please see PAPPG (19-1), Chapter I.E.1, for more information.
- A new checkbox also will be added to the proposal Cover Sheet to denote funding of a foreign organization, including through use of subawards or consultant arrangements. Please see PAPPG (19-1), Chapter I.E.6, for further information.
- An error message will be received if either checkbox is selected but a corresponding country name is not entered.
- Research.gov compliance checks are triggered by the “Allow SPO/AOR access” and “Submit” to NSF functions. The complete list of Research.gov automated compliance checks effective February 25, 2019, will be available on the NSF.gov Automated Compliance Checking of NSF Proposals webpage.

Proposal Preparation and Submission via the NSF Research.gov System:
- The PAPPG (NSF 19-1) incorporates proposal preparation and submission in Research.gov as an alternative to the NSF FastLane System. Proposals may also be submitted to NSF via Grants.gov.
- On-screen instructions in Research.gov may vary from what is stated in the PAPPG (NSF 19-1); however, the content requirements of the proposal remain the same. Proposers using Research.gov for proposal submission must follow the on-screen instructions.
- Additional information about proposal preparation and submission in Research.gov, including Frequently Asked Questions (FAQs) and training videos, is available on the About Research.gov Proposal Preparation and Submission webpage.

Separation of the “Center/Research Infrastructure” Proposal Type:
- The “Center/Research Infrastructure” proposal type will be separated into a “Center” proposal type and a “Research Infrastructure” proposal type in FastLane and Grants.gov. These proposal types are not yet available for submission in Research.gov.
- FastLane will run automated compliance checks for these proposal types and will generate an error or warning when the submission validation compliance checks are not met.
- FastLane automated compliance checks are run during “Check Proposal,” “Forward to SPO,” and “Submit Proposal.” The complete list of FastLane automated compliance checks effective February 25, 2019, will be available on the NSF.gov Automated Compliance Checking of NSF Proposals webpage.

Note about PFUs:
The automated compliance checks also apply when a proposal file update (PFU) is performed on a proposal. The compliance checks will be run on all sections of the proposal, regardless of which section was updated during the PFU. Proposers should be aware that if a proposal was previously submitted successfully, a PFU performed on the proposal will be prevented from submission if the proposal does not comply with the compliance checks in effect at the time.
Please share this information with your colleagues. To learn about the changes in the revised PAPPG (NSF 19-1), please view the latest NSF Proposal & Award Policy Update webinar.

For IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or via email to regov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.

Regards,
The FastLane & Research.gov Team at the National Science Foundation

FOR NSF PROPOSAL WRITERS!
There are new NSF requirements for PDFs submitted via Fastlane and Research.gov, however this is NOT stated clearly in the Proposal Application Guide (PAPPG). NSF now requires document to be saved in “PDF/A” format, which is ISO compliant prior to upload. To produce a PDF/A document in Adobe Pro, click: File > Save As > More Options > PDF/A.

“PDF/A is an ISO-standardized version of the Portable Document Format (PDF) specialized for use in the archiving and long-term preservation of electronic documents. PDF/A differs from PDF by prohibiting features unsuitable for long-term archiving, such as font linking (as opposed to font embedding) and encryption. The ISO requirements for PDF/A file viewers include color management guidelines, support for embedded fonts, and a user interface for reading embedded annotations.”

**IMPORTANT INFORMATION FROM FINANCIAL OPERATIONS**

• **Summer 2019 Student Research Projects Logistics:** Arrangements are being made now! To finalize budgetary and living arrangements for students and faculty involved in summer 2019 projects, contact Christine Hock (x8354) in Financial Operations for external grant support projects, or Ellen Pfarr (x1928) for College/R&D-supported research.

• Ensuring that all awards and grants are duly recognized by the college and properly reflected in the financial records is important. All award funds should go directly to the College Advancement Office so that we can process them in Banner. The Gift Recorder (Jen Acuna) enters the funds in Banner so that they are recorded in College Advancement’s records and in the financial records in accounts restricted for that award. The College Advancement and Financial Operations offices work together closely to make sure this process captures all college awards. If you receive an award, please make sure to contact one of these offices.

• **Cost Share Guidelines:** If a proposal requires cost sharing, the commitment of institutional resources must be noted on the External Grant Notification/Clearance Form that is circulated among the senior officers of the college for approval. If the college receives the award that includes cost sharing in the approved budget, the college is obligated to record these costs in the financial records and these cost share expenses are subject to audit. Please be sure to discuss cost sharing with the Sponsored Projects Office and/or Financial Operations offices prior to submitting proposals.

• Every grant or award has a unique account number (called FOAPAL) to track activity specific to that award. These numbers are assigned by Financial Operations when award letters are received. Christine Hock tracks activity in accounts and sends quarterly spreadsheets to Financial Managers for their information and review. As a Financial Manager, you have the ability to review real time expenditures via Banner Self-Service. Please contact Miriam McMechen to inquire about Self-Service training offerings and direct specific questions about finances on awards to Christine.

• If you have recommendations about information that would be useful for managing your grants (additional analysis, open sessions, Banner training, one-on-one assistance, etc.), please contact Christine Hock.
