Demographic Information Site Has Moved from FastLane to Research.gov

Dear Colleagues:

As you know, last year the National Science Foundation (NSF) made important changes to the way the research community registers for NSF accounts and maintains account and user profile information in FastLane and Research.gov. Please be advised that effective May 20, 2019, the Demographic Information site has moved from FastLane to the Research.gov Account Management site, so you can manage your profile data in one location.

Here’s what you need to know:

- Demographic information previously entered on the FastLane site was migrated to “My Profile” in Research.gov.
- To view or edit your demographic information:
  - Sign in to Research.gov and click on “My Profile” located at the top of the screen.
  - Demographic information is located on your "View/Edit Profile" page.
  - Scroll down to the Demographic Information section at the bottom of your profile to view the demographic information you previously provided in FastLane or to update your demographic information.
- Submission of the requested demographic information is voluntary. NSF asks for demographic data relating to gender, ethnicity/race, and disability status to gauge whether our programs and other opportunities in science and technology are fairly reaching and benefiting everyone regardless of demographic category; and to ensure that those in underrepresented groups have the same knowledge of and access to programs, meetings, vacations, and other research and educational opportunities as everyone else.
Screenshots of the new Research.gov Demographic Information section are available in the [Account Management Guide](#), and new questions have been added to the [Frequently Asked Questions](#) (FAQs). Additional Account Management resources are accessible from the Research.gov [About Account Management](#) page.

For IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 or [rgov@nsf.gov](mailto:rgov@nsf.gov). Policy-related questions should be directed to [policy@nsf.gov](mailto:policy@nsf.gov).

Regards,
Research.gov Team at the National Science Foundation

**FOR NSF PROPOSAL WRITERS!**
There are new NSF requirements for PDFs submitted via Fastlane and Research.gov, however this is NOT stated clearly in the Proposal Application Guide (PAPPG). NSF now requires document to be saved in “PDF/A” format, which is ISO compliant prior to upload. To produce a PDF/A document in Adobe Pro, click: File > Save As > More Options > PDF/A.

“PDF/A is an ISO-standardized version of the [Portable Document Format](#) (PDF) specialized for use in the archiving and long-term preservation of electronic documents. PDF/A differs from PDF by prohibiting features unsuitable for long-term archiving, such as font linking (as opposed to font embedding) and encryption. The ISO requirements for PDF/A file viewers include color management guidelines, support for embedded fonts, and a user interface for reading embedded annotations.” [1]

**IMPORTANT INFORMATION FROM FINANCIAL OPERATIONS**

• Ensuring that all awards and grants are duly recognized by the college and properly reflected in the financial records is important. All award funds or notifications of wire/ACH transactions should be sent to Steve Moul in Financial Operations for proper identification and to coordinate deposit and recording within Banner. After identification, the Gift Recorder (Jen Acuna) will then enter the deposit in Banner to the fund restricted to that award and records them in the college’s Advancement’s records. The College Advancement and Financial Operations offices work together closely to make sure this process captures all college awards. If you receive an award, please be sure to contact Steve Moul to assist you in ensuring that your funding is accounted for properly from start to finish.

• **Cost Share Guidelines:** If a proposal requires cost sharing, the commitment of institutional resources must be noted on the External Grant Notification/Clearance Form that is circulated among the senior officers of the college for approval. If the college receives the award that includes cost sharing in the approved budget, the college is obligated to record these costs in the financial records and these cost share expenses are subject to a audit. Please be sure to discuss cost sharing with the Sponsored Projects Office and/or Financial Operations offices prior to submitting proposals.

• Every grant or award has a unique account number (called FOAPAL) to track activity specific to that award. These numbers are assigned by Financial Operations when award letters are received. Steve Moul tracks activity in accounts and sends quarterly spreadsheets to Financial Managers for their information and review. As a Financial Manager, you have the ability to review real time expenditures via Banner Self-Service. Please contact Miriam McMechen to inquire about Self-Service training offerings and direct specific questions about finances on awards to Steve.

• If you have recommendations about information that would be useful for managing your grants (additional analysis, open sessions, Banner training, one-on-one assistance, etc.), please contact Steve Moul.
