• National Science Foundation - Improving Undergraduate STEM Education (IUSE). The IUSE program invites proposals that address immediate challenges and opportunities that are facing undergraduate STEM education, as well as those that anticipate new structures (e.g. organizational changes, new methods for certification or credentialing, course re-conception, cyberlearning, etc.) and new functions of the undergraduate learning and teaching enterprise. The IUSE program recognizes and respects the variety of discipline-specific challenges and opportunities facing STEM faculty as they strive to incorporate results from educational research into classroom practice and work with education research colleagues and social science learning scholars to advance our understanding of effective teaching and learning. For more information, visit [http://www.nsf.gov/pubs/2014/nsf14588/nsf14588.htm](http://www.nsf.gov/pubs/2014/nsf14588/nsf14588.htm). - **National Science Foundation - Major Research Instrumentation (MRI).** This program seeks to improve the quality and expand the scope of research and research training in science and engineering, by providing organizations with opportunities to acquire instrumentation that supports the research and research training goals of the organization. The program emphasizes shared-use instrumentation that will enhance the capabilities of researchers both within and outside the proposing organization. Development efforts that leverage the strengths of private sector partners to build instrument development capacity at MRI submission-eligible organizations are encouraged. The MRI Program is intended to assist with the acquisition or development of a single research instrument that is, in general, too costly and/or not appropriate for support through other NSF programs. An instrument acquired or developed with support from the MRI program is expected to be operational for regular research use by the end of the award period. The program does not fund research projects, including research that uses an instrument acquired or developed with support from the program. The program does not support the operation and maintenance of facilities or centers. Proposals to the MRI Program, must be for *either* acquisition (Track 1) *or* development (Track 2), and must be for only a single, well-integrated instrument. A well-integrated research instrument means that the ensemble of equipment that defines the instrument enables a specific research experiment or type of research experiment to be undertaken; separating or removing an element or component of such an integrated instrument would preclude any experiments from occurring or succeeding. The MRI program does not support the acquisition or development of a suite of instruments to outfit research laboratories/facilities or to conduct independent experiments simultaneously. Similarly the MRI program does not fund common, general purpose ancillary equipment that would normally be found in a laboratory and/or is relatively easily procured by the organization. Further guidance on appropriate requests can be found in the MRI FAQs at [http://www.nsf.gov/od/iia/programs/mri](http://www.nsf.gov/od/iia/programs/mri). Deadline (for most awards): August 1, 2015
  o **If I already had a Fulbright, can I get another one?**
    • With the launch of the 2014-15 Core Fulbright Scholar Program competition, restrictions regarding previous Fulbright experiences have been lifted by the J. William Fulbright Foreign Scholarship Board. The board reiterated its strong preference for Fulbright Scholar opportunities to be given to candidates who have not previously received a Fulbright Scholar grant, as stipulated in section 624.2 of the Fulbright Program Policies.

• **National Science Foundation - Research Experiences for Undergraduates.** The REU Sites program is based on independent proposals to initiate and conduct projects that engage a number of students in research. REU Sites may be based in a single discipline or academic department, or on interdisciplinary or multi-department research opportunities with a coherent intellectual theme. Proposals with an international dimension are welcome. For more information, visit [http://www.nsf.gov/pubs/2013/nsf13542/nsf13542.htm](http://www.nsf.gov/pubs/2013/nsf13542/nsf13542.htm). Deadlines: August 26, 2015

• **ASIANetwork - various programs.** For more information, visit [http://www.asianetwork.org/programs/](http://www.asianetwork.org/programs/). Deadlines: various

• **National Science Foundation - Research Coordination Networks (RCN).** The goal of the RCN program is to advance a field or create new directions in research or education by supporting groups of investigators to communicate and coordinate their research, training and educational activities across disciplinary, organizational, geographic and international boundaries. For more information, visit [http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=11691](http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=11691). Deadline: General (non-targeted) RCN proposals should be submitted to a participating program. Refer to the specific program website for submission dates. PIs are encouraged to discuss suitability of an RCN topic with the program.
- **Carnegie Corporation of New York – Urban and Higher Education – Pathways to Education.** The Carnegie Corporation of New York’s Urban and Higher Education Program’s goals are centered on creating pathways to educational and economic opportunity by generating systemic change across a K-16 continuum, with particular emphasis on secondary and higher education. The Carnegie Corporation works to enable many more students, including historically underserved populations, to achieve academic success. Grantees help all students perform with the high levels of creative, scientific, and technical knowledge and skill needed to compete in a global economy and exercise leadership. For more information, visit [http://carnegie.org/grants/grantseekers/how-to-apply/](http://carnegie.org/grants/grantseekers/how-to-apply/). Deadline: Letters of inquiry accepted on rolling basis.

- **Humboldt Foundation - Humboldt Research Fellowship for Experienced Researchers.** This opportunity is for researchers with above average qualifications, having completed the doctorate less than 12 years ago, already having their own research profile, and are working at least at the level of Assistant Professor or Junior Research Group Leader or have a record of several years of independent academic work. For more information, visit [http://www.humboldt-foundation.de/web/1710.html](http://www.humboldt-foundation.de/web/1710.html). Deadline: Rolling.

- **Council for the International Exchange of Scholars - Fulbright Specialist Program.** This program is designed to provide short-term academic opportunities (two to six weeks) for U.S. faculty and professionals. Shorter grant lengths give Specialists greater flexibility to pursue a grant that works best with their current academic or professional commitments. For more information, visit [http://www.cies.org/Specialists/](http://www.cies.org/Specialists/). Deadline: Rolling.

- **National Socio-Environmental Synthesis Center - Various Programs.** For more information, visit [http://www.sesync.org/opportunities](http://www.sesync.org/opportunities). Deadlines: Rolling.

- **Rutgers Institute for Research on Women - Global Scholars Program.** As part of its commitment to foster feminist research at Rutgers and beyond, the IRW hosts feminist researchers from around the world as visiting global scholars. Visiting global scholars are able to pursue their own research and writing in a supportive environment and access Rutgers’ unique feminist resources. They also participate in the IRW Seminar, present public lectures to the university community and speak in classes and community forums. For more information, visit [http://irw.rutgers.edu/images/2014-15_Global_Scholars_Call_FINAL.pdf](http://irw.rutgers.edu/images/2014-15_Global_Scholars_Call_FINAL.pdf). Deadline: Rolling.

- **Institute for Humane Studies - Hayek Fund for Scholars** (Career development grants up to $750 for untenured scholars). These grants can cover travel, application fees, conference fees, and other career-related expenses. Eligible career-advancing activities include, but are not limited to: Presentations at academic or professional conferences; Travel to academic job interviews on a campus or at professional/academic conferences; Travel to archives or libraries for research; Participation in career-development or enhancing seminars; Distribution of a published article to colleagues in your field; Submission of unpublished manuscripts to journals or book publishers. Note, Hayek Fund awards are not given for conference attendance alone. Funding will only be considered for individuals presenting a paper or interviewing for a job at a conference. For more information, visit [http://www.theihs.org/Hayek-fund](http://www.theihs.org/Hayek-fund). Deadline: Applications are accepted on a rolling basis no later than four weeks before the fundable activity.

- **Institute for Humane Studies - Hayek Fund for Faculty** (Student educational enhancement grants up to $5,000 for full-time faculty (including tenured) and teaching fellows working to share the ideas of liberty with undergraduate students). Eligible activities include, but are not limited to: Reading groups; Class trips; Guest lectures; Research Fellowships; Seminars/Colloquia; Debates; Movie Viewings and Discussions; Developing a new course. For more information, visit [http://www.theihs.org/Hayek-fund](http://www.theihs.org/Hayek-fund). Deadline: Applications are accepted on a rolling basis no later than four weeks before the fundable activity.

- **Rockefeller Foundation - Practitioner Residencies at the Bellagio Center.** This program offers academic, artists, thought leaders, policymakers, and practitioners a serene setting conducive to focused, goal-oriented work, and the unparalleled opportunity to establish new connections with fellow residents from a stimulating array of disciplines and geographies. The Bellagio Center community generates new knowledge to solve some of the most complex issues facing our world and creates art that inspires reflection, understanding, and imagination. Practitioner residencies typically last four weeks in length. For more information, visit [http://www.rockefellerfoundation.org/bellagio-center/residency-program/practitioner-residency](http://www.rockefellerfoundation.org/bellagio-center/residency-program/practitioner-residency). Deadline: Applications are accepted on a rolling admissions basis throughout the year. Applicants will be notified of the decision within eight weeks of receiving the application and letters of reference.
Rockefeller Foundation - Bellagio Study & Conference Center - International Conferences on Global Issues. Bellagio conferences establish new connections across disciplines and geographies, encourage dynamic, small group interactions, and promote innovative and creative thinking - all in a serene setting conducive to focused, goal-oriented work. Approximately one-third of the conferences that take place at the Bellagio Center over the course of a year are organized directly by the Rockefeller Foundation. The other conferences are arranged by people and institutions that share in the Foundation’s vision of expanding opportunities for poor or vulnerable people. For externally-organized conferences, chosen through a competitive process, the Foundation provides the facilities, accommodations, and some travel support at no cost to conference organizers or attendees. These selected conferences aim to contribute to our broader mission of promoting the well-being of humanity. For more information, visit http://www.rockefellerfoundation.org/bellagio-center/conferences. Deadline: Conference applications are accepted on a rolling basis. Applicants are advised to apply at least six to nine months in advance depending on the availability of conference spaces at Bellagio.

National Socio-Environmental Synthesis Center - Sabbatical & Research Fellowships. Sabbatical Fellowships (2-12 months) support social, environmental, or cyberinfrastructure research activities that will advance the mission of SESYNC. For more information, visit http://www.sesync.org/sabbatical-and-research-fellowships. Deadline: Applications are accepted on a rolling basis and evaluated quarterly.

FACULTY DEVELOPMENT OPPORTUNITIES – WORKSHOPS, CONFERENCES

American Association of University Women (AAUW)
- AAUW is currently recruiting faculty to serve on applicant review and selection panels for the following programs:
  - American Fellowships
  - International Fellowships
  - Selected Professions Fellowships
  - Research & Projects Community Action Grants
  - Research & Projects Career Development Grants

Council for the International Exchange of Scholars (CIES)
- If I already had a Fulbright, can I get another one?
  - Restrictions regarding previous Fulbright experiences have been lifted by the J. William Fulbright Foreign Scholarship Board. The board reiterated its strong preference for Fulbright Scholar opportunities to be given to candidates who have not previously received a Fulbright Scholar grant, as stipulated in section 624.2 of the Fulbright Program Policies.

Council on Undergraduate Research (CUR)
- CUR Registry of Undergraduate Researchers:
  - The purpose of this registry is to facilitate matchmaking between undergraduates who have research experience and a desire to pursue an advanced degree, with graduate schools seeking high quality students who are well prepared for research. The Registry is open to students and graduate schools in the fields of Chemistry, Biochemistry, Biology, Physics/ Astronomy, Mathematics/Computer Science, Economics, Geosciences, Engineering, Psychology, Sociology, Humanities and Anthropology/Archaeology. Any undergraduate may go to www.cur.org/ugreg/ to fill out a simple curriculum vitae form. There is no charge to the student and records will be made available to bona fide Graduate Schools that contract with CUR for this service. Organizations or companies seeking the students’ information for other marketing purposes will not be granted access. Graduate School representatives may contact students to invite applications or visits to the campus and laboratory, or to share information about their research programs and financial support opportunities.

- CUR List-serv:
  - In an effort to enhance communication between the divisions of CUR a number of divisions have established list-servs. To subscribe to these listservs, please visit http://www.cur.org/curlsubscribe.html. In the future, periodic
updates will be posted on these listservs and we hope that it will function as a two-way communication conduit between the Council and the broader CUR membership.

**National Institutes of Health (NIH)**
- Visit the NIH’s Research Portfolio Online Reporting Tools (RePORT) – it provides access to reports, data, and analyses of NIH research activities, including information on NIH expenditures and the results of NIH supported research [http://report.nih.gov/](http://report.nih.gov/).

**National Science Foundation (NSF)**
- **NSF Day in Baltimore, MD**
  - The NSF and the Maryland Science Center are pleased to invite you to participate in the upcoming *NSF Day to be held on December 8, 2014, at Baltimore’s Inner Harbor*. *NSF Days* provide insight and instruction on how to compete for and secure NSF funding for science, engineering and education research. This day-long workshop will provide background on the Foundation, its mission, priorities, and budget. For more information, visit [http://www.nsf.gov/events/event_summ.jsp?cntn_id=133134&WT.mc_id=USNSF_13&WT.mc_ev=click](http://www.nsf.gov/events/event_summ.jsp?cntn_id=133134&WT.mc_id=USNSF_13&WT.mc_ev=click).
  - **Registration deadline:** Wednesday, December 3, 2014. The registration fee of $100, which includes lunch, must be electronically submitted to the Maryland Science Center at [nsfday.eventbrite.com](https://nsfday.eventbrite.com/). Only then will registration be complete.

**Project Kaleidoscope (PKAL)**
- For upcoming PKAL events, visit [http://www.aacu.org/pkal/events/](http://www.aacu.org/pkal/events/).

**Undergraduate Research Commons**
- The Undergraduate Research Commons is a discovery portal showcasing outstanding undergraduate research publications. This collection of work includes award-winning capstone projects, faculty-mentored research, and peer-reviewed scholarship from hundreds of undergraduate institutions. Visit [http://undergraduatecommons.com/](http://undergraduatecommons.com/).

GRANT NEWS & UPDATES

- National Science Foundation Update: New PAPPG (NSF 15-1)
  - A letter from Jean Feldman, Head of NSF Policy Office:

Dear Colleagues,

We are pleased to announce that a revised version of the Proposal & Award Policies & Procedures Guide (PAPPG), (NSF 15-1) has been issued. The PAPPG has been revised to implement 2 CFR § 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The Uniform Guidance incorporates language from eight existing Office of Management and Budget (OMB) circulars into one consolidated set of guidance in the Code of Federal Regulations. The PAPPG also has been revised to incorporate other significant changes and clarifications unrelated to the Uniform Guidance implementation.

The PAPPG is comprised of documents relating to the Foundation's proposal and award process and consists of the:

- Grant Proposal Guide (GPG) for guidance on the preparation and submission of proposals to NSF; and
- Award & Administration Guide (AAG) to guide, manage, and monitor the award and administration of grants and cooperative agreements made by the Foundation.

As mandated by OMB, the new PAPPG will be effective December 26, 2014. In addition to the significant changes to implement the Uniform Guidance, other important revisions include:

- Acknowledgement of the implementation of NSF’s new financial system (iTRAK);
- Addition of an NSF electronic capabilities modernization status matrix to assist the community as NSF transitions our electronic capabilities to Research.gov;
- Additional compliance checking regarding the type of proposal mechanism used;
- Expansion of the budget justification section to reflect that each subaward must include a separate budget justification of no more than three pages;
- New coverage on the Ideas Lab funding mechanism;
- Description of new prior approval requirements; and
- Numerous clarifications throughout the document.

Given the extensive nature of the changes made to implement the Uniform Guidance and other important revisions, the community is strongly encouraged to review the by-chapter summary of the changes provided in the Introduction section of the PAPPG. A webinar to brief the community on the new PAPPG will be held in early January; further communication will be forthcoming.

While this version of the PAPPG becomes effective on December 26, 2014, in the interim, the guidelines contained in the current PAPPG (NSF 14-1) continue to apply. We will ensure that the current version of the PAPPG remains on the NSF website, with a notation to proposers that specifies when the new PAPPG (including a link to the new Guide) will become effective.

Please direct any questions to the Policy Office in the Division of Institution & Award Support at policy@nsf.gov, or (703) 292-8243.

Regards,

Jean Feldman

**FEATURED GRANT PROGRAMS:** NATIONAL SCIENCE FOUNDATION - MAJOR RESEARCH INSTRUMENTATION; AND: NEH SUMMER SEMINARS AND INSTITUTES - CREATE *OR* ATTEND A SEMINAR OR INSTITUTE

National Science Foundation - Major Research Instrumentation (MRI). This program seeks to improve the quality and expand the scope of research and research training in science and engineering, by providing organizations with opportunities to acquire instrumentation that supports the research and research training goals of the organization. The program emphasizes shared-use instrumentation that will enhance the capabilities of researchers both within and outside the proposing organization. Development efforts that leverage the strengths of private sector partners to build instrument development capacity at MRI submission-eligible organizations are encouraged. The MRI Program is intended to assist with the acquisition or development of a single research instrument that is, in general, too costly and/or not appropriate for support through other NSF programs. An instrument acquired or developed with support from the MRI program is expected to be operational for regular research use by the end of the award period. The program does not fund research projects, including research that uses an instrument acquired or developed with support from the program. The program does not support the operation and maintenance of facilities or centers. Proposals to the MRI Program, must be for either acquisition (Track 1) or development (Track 2), and must be for only a single, well-integrated instrument. A well-integrated research instrument means that the ensemble of equipment that defines the instrument enables a specific research experiment or type of research experiment to be undertaken; separating or removing an element or component of such an integrated instrument would preclude any experiments from occurring or succeeding. The MRI program does not support the acquisition or development of a suite of instruments to outfit research laboratories/facilities or to conduct independent experiments simultaneously. Similarly the MRI program does not fund common, general purpose ancillary equipment that would normally be found in a laboratory and/or is relatively easily procured by the organization. Further guidance on appropriate requests can be found in the MRI FAQs at http://www.nsf.gov/od/iia/programs/mri. See also http://www.nsf.gov/pubs/2015/nsf15504/nsf15504.htm?WT.mc_id=USNSF_25&WT.mc_ev=click. Deadline: January 22, 2015

• RESOURCE REMINDER: SPIN/GENIUS/SMARTS

As you may already know, InfoEd Global’s SPIN is a terrific resource that is available to the entire Dickinson community. This comprehensive web-based funding opportunity database is accessible to anybody on campus using the college’s Internet connection through the network. You can access SPIN at https://spin.infoedglobal.com/Home/GridResults.

Through InfoEd Global, the Dickinson community also has access to other valuable modules: GENIUS and SMARTS. GENIUS is a global web network and database of scientific scholarly expertise. The system contains profiles entered and maintained by scholars and researchers at leading universities and research institutions throughout the world. GENIUS serves as a registry of institutional talent and expertise to be used by industry and academia and provides a searchable resource for identifying interest and expertise for industry/university partnering, global partnering, and sponsored funding matches.

SMARTS is an electronic matching and funding opportunity notification system which provides investigators with a direct and targeted electronic link to comprehensive, current and available national and international research funding information. The investigator profile information is collected via GENIUS and used for matching with the SPIN database. Matching is conducted on a daily basis and programs are automatically emailed to individual researchers.

To create a GENIUS profile, go to the GENIUS module at http://www.infoed.org/GeniusSearch/genius.asp.

- Once there, select the “Create a New Profile” link.
- You will then be brought to a list of participating institutions. Scroll down the list and select “Dickinson College.”
- You will now enter the “New Profile Registration” screen. Here you will want to populate the information requested and create a unique user name and password (under the “Select Your Department” bullet, be sure to click “Dickinson College—School Trial—Department Trial”).
- Once you have completed these steps, you will be transported to the “Profile Summary Page.” For the purpose of creating a profile which will allow you to begin receiving the SMARTS daily email alerts containing new funding opportunities, it is recommended that you populate the following categories: 1) General; 2) Keywords; 3) Applicant Type; 4) Award Types; 5) Geographical Restrictions; 6) Sponsor Types; and 7) Locations Tenable.
Once you have populated the fields outlined above for the purpose of receiving SMARTS email alerts, you may opt to continue on and populate the other GENIUS Categories if you so choose. The GENIUS Categories will allow you to build a more comprehensive profile. The primary purpose of completing the GENIUS Categories portion is to provide individuals at other participating institutions the ability to browse your profile and contact you if they have similar research interests.

Once you have completed populating the fields required to build your GENIUS profile, it will be validated by Dickinson’s Office of Corporate, Foundation and Government Support and you will be ready to begin receiving your daily SMARTS email, alerting you of relevant funding opportunities. Once validated, you will then be able to sign into SPIN for added functionality and remote access.

During the creation of your GENIUS profile, should you encounter any problems or need assistance, please contact Ben Sweger.

If you find a funding opportunity using SPIN or through a SMARTS email, notify the CF&GS office so that we can assist you with the proposal preparation and submission processes.

**IMPORTANT INFORMATION FROM FINANCIAL OPERATIONS**

• Ensuring that all awards and grants are duly recognized by the College and properly reflected in the financial records is important. All award funds should go directly to the College Advancement Office so that we can process them in Banner. The Gift Recorder (Jen Acuna) enters the funds in Banner so that they are recorded in College Advancement’s records and in the financial records in accounts restricted for that award. The College Advancement and Financial Operations offices work together closely to make sure this process captures all College awards. **If you receive an award, please make sure to contact one of these offices.**

• **Cost Share Guidelines:** If a proposal requires cost sharing, the commitment of institutional resources must be noted on the External Grant Notification/Clearance Form that is circulated among the senior officers of the College for approval. If the College receives the award that includes cost sharing in the approved budget, the College is obligated to record these costs in the financial records and these cost share expenses are subject to audit. Please be sure to discuss cost sharing with the Sponsored Projects Office and/or Financial Operations offices prior to submitting proposals.

• Every grant or award has a unique account number (called FOAPAL) to track activity specific to that award. These numbers are assigned by Financial Operations when award letters are received. Tricia Contino tracks activity in accounts and sends quarterly spreadsheets to Financial Managers for their information and review. As a Financial Manager, you have the ability to review real time expenditures via Banner Self-Service. Please contact Miriam McMechen to inquire about Self-Service training offerings and direct specific questions about finances on awards to Tricia.

• If you have recommendations about information that would be useful for managing your grants (additional analysis, open sessions, Banner training, one-on-one assistance, etc.), please contact Tricia Contino.
